# PROGRAMME

LEIPZIG INTERVENTIONAL COURSE

LINC

**Tuesday, January 24, 2017**

**ROOM 1 - MAIN ARENA 1**

**08:00 – 09:30** **SYMPOSIUM: New evidence for broadened indications using new generation stents in fempop obstructions**

supported with an educational grant from Abbott Vascular

*MODERATOR:*
Dierk Scheinert

*PANEL:*
Andrej Schmidt
Marcus Treitl
Miguel Montero-Baker
Konstantinos Katsanos
Luis Mariano Palena
**Yann Gouëffic**

08:00 – 08:07 Overview of all available stents for use in the SFA/popliteal arteries
Andrej Schmidt

08:07 – 08:14 Stent design matters – results from a single operator registry
Marcus Treitl

08:14 – 08:49 Live case transmission from Leipzig

08:49 – 08:56 Advancing medical care in highly diseased patients – the US experience
Miguel Montero-Baker

08:56 – 09:03 SUPERFAST – a prospective CTOs registry propensity matched with a historical SNS cohort
Konstantinos Katsanos

09:03 – 09:10 The PRESTO technique for precise placement of the SUPERA in the SFA ostium and SUPERSUB update
Luis Mariano Palena

09:10 – 09:17 CFA stenting experiences to date and insights into the CFA SUPERA study
**Yann Gouëffic**

09:17 – 09:30 Live case transmission from Dendermonde

**We are asking all faculty members to strictly respect the given time limits.**

# PROGRAMME

LEIPZIG INTERVENTIONAL COURSE

LINC

**Thursday, January 26, 2017**

**ROOM 1 - MAIN ARENA 1**

| | |
|---|---|
| **16:30 – 18:00** | **THE LAST FRONTIERS: Interventional treatment of common femoral and popliteal artery disease**<br>*MODERATOR:*<br>Lawrence Garcia<br>Marc Bosiers<br>*PANEL:*<br>Bob Smouse<br>Sven Seifert<br>Torsten Fuß<br>**Yann Gouëffic**<br>Chris Metzger<br>Wei Liang |
| 16:30 – 16:37 | The common femoral artery – an anatomical region still reserved for treatment by the surgeons?<br>Marianne Brodmann |
| 16:37 – 16:44 | Stenting of the common femoral artery for atherosclerotic lesions: is it feasible and how and when we do it<br>Peter Goverde |
| 16:44 – 17:08 | Live case transmission from Bad Krozingen |
| 17:08 – 17:15 | A randomized comparison of endovascular versus surgery treatment of common femoral artery disease: Results from the TECCO trial<br>**Yann Gouëffic** |
| 17:15 – 17:22 | First experiences in the VMI-CFA study: investigating the Supera stent in the common femoral artery. Is the Supera a valuable alternative for common femoral endarterectomy?<br>Koen Deloose |
| 17:22 – 17:46 | Live case transmission from Leipzig |
| 17:46 – 17:53 | DCB for popliteal artery stenosis: The IN.PACT Flexion trial<br>Patrick Peeters |
| 17:53 – 18:00 | Directional atherectomy plus DCB versus DCB alone for isolated lesions of the popliteal artery<br>Konstantinos Stavroulakis |

**We are asking all faculty members to strictly respect the given time limits.**
