PROGRAMME

LEIPZIG INTERVENTIONAL COURSE

LINC

Tuesday, January 24, 2017

ROOM 6 - SPEAKERS' CORNER

13:30 – 15:10	**Update on peripheral clinical trials and new data – claudication/femoropopliteal** *MODERATOR:* Erich Minar *PANEL:* Ramon Varcoe
13:30 – 13:35	LIBERTY 360 study: Procedural and 30-day outcomes of endovascular interventions in patients with symptomatic lower extremity peripheral arterial disease Jihad Mustapha
13:35 – 13:40	Supervised exercise therapy and peripheral angioplasty: friends or foes? An evidence synthesis from randomised controlled trials Konstantinos Katsanos
13:40 – 13:45	Morbidity and mortality in PAD-patients – first data from a global prospective multicenter study in claudicants **Marcus Thieme**
13:45 – 13:50	Primary stenting of the superficial femoral artery in intermittent claudication gives improved health related quality of life, ABI and walking distance – 12-month results of a prospective randomised multicenter trial Hans Lindgren
13:50 – 13:55	DOND: Systematic review and meta-analysis on DCB vs. POBA for de-novo femoropopliteal PVD – C. Klumb
13:55 – 14:00	SAVER: rationale and merits for an all comers DCB registry Frank Vermassen
14:00 – 14:05	CONSEQUENT DCB registry Dirk Härtel
14:05 – 14:10	EffPac trial: Assessment of the effectiveness of DCB versus POBA in the SFA Ulf Teichgräber
14:10 – 14:15	TOBA II and III clinical trial programme Michael Lichtenberg

We are asking all faculty members to strictly respect the given time limits.

LEIPZIG INTERVENTIONAL COURSE

LINC

Tuesday, January 24, 2017

14:15 – 14:20	REALISTIC trial: 18-month results and experiences with the Smart Flex stent for the treatment of femoropopliteal lesions Peter Goverde
14:20 – 14:25	First 6-month results in 75 patients in the EVOLUTION study: investigating the iVolution stent in femoropopliteal lesions Marc Bosiers
14:25 – 14:30	Freeway stent study Stefan Müller-Hülsbeck
14:30 – 14:35	Preliminary data on DRASTICO RCT comparing DCB vs. DES in the treatment of FemPop disease in real world Francesco Liistro
14:35 – 14:40	FOREST trial: a randomized controlled trial comparing drug-eluting balloons and drug-eluting stents in femoropopliteal arterial occlusive disease – H. Jongsma
14:40 – 14:45	Effectiveness of the Zilver PTX drug-eluting stent for femoropopliteal peripheral arterial disease in patients with no tibial runoff vessels: 24-month results from the Zilver PTX Post-Market Surveillance Study in Japan – S. Cipollari
14:45 – 14:50	REALITY the future of directional atherectomy in the SFA Lawrence Garcia
14:50 – 14:55	2-year follow-up data from the pivotal VISION study for OCT guided directional atherectomy Ian Cawich
14:55 – 15:00	Jetstream atherectomy in treating de novo or non-stent restenotic femoropopliteal disease: One-year results from the JET registry Lawrence Garcia
15:00 – 15:05	Treating in-stent occlusions with the Rotarex catheter: the ROBINSON study: final 6-month results in 30 patients Marc Bosiers
15:05 – 15:10	Discussion

We are asking all faculty members to strictly respect the given time limits.

LEIPZIG INTERVENTIONAL COURSE

LINC

Tuesday, January 24, 2017

ROOM 6 - SPEAKERS' CORNER

15:30 – 17:00	**Update on peripheral clinical trials and new data – Carotid/Miscellaneous/EVAR** *MODERATOR:* Peter Schneider *PANEL:* Konstantinos Donas Dai-Do Do
15:30 – 15:45	CAROTID
15:30 – 15:35	CONFIDENCE trial: Nitinol mesh covered carotid stent-trial design and early experience Chris Metzger
15:35 – 15:40	SCAFFOLD study: GORE PTFE mesh-covered carotid stent – preclinical and clinical data so far Peter Schneider
15:40 – 15:45	Clinical results and mechanical properties of a novel double-layered carotis stent (CGUARD) Christian Wissgott
15:45 – 16:30	MISCELLANEOUS
15:45 – 15:50	Early results of a prospective registry of carotid stenting with the new C-Guard mesh covered stent in real world: The IRON-GUARD registry – P. Sirignano
15:50 – 15:55	Comparison of different stent models in terms of patency and efficiency in treatment of peripheral artery disease – I. Staudacher
15:55 – 16:00	Covered stents versus bare-metal stents in chronic atherosclerotic gastrointestinal ischaemia (CoBaGI): a multicenter randomised controlled trial – L. van Dijk
16:00 – 16:05	Early clinical experience with the 4 Fr everlinQ™ endoAVF in creating vascular access for hemodialysis: The EASE Study – 4F – T. Berland
16:05 – 16:10	Prevalence of polyvascular disease with aorto iliac artery disease – Results from OMOTENASHI registry – Y .Shintani
16:10 – 16:15	Puncture-site complications in peripheral interventions – a prospective single-center registry of more than 3.000 patients **Marcus Thieme**
16:15 – 16:20	PAD meets personalised medicine – O. Aalami

We are asking all faculty members to strictly respect the given time limits.

LEIPZIG INTERVENTIONAL COURSE

LINC

Tuesday, January 24, 2017

16:20 – 16:25	The effect of renal denervation on blood pressure and sleep apnea – results of the Polish RCT Adam Witkowski
16:25 – 16:30	The next steps in renal denervation – update on Medtronic SPYRAL HTN program Thomas Zeller
16:30 – 16:55	EVAR
16:30 – 16:35	Prospective study of the e-liac stent graft system in patients with common iliac artery aneurysm: 30-day results Jan Brunkwall
16:35 – 16:40	INNOVATION: Long-term five year safety and effectiveness of the INCRAFT AAA stent graft for endovascular repair of abdominal aortic aneurysms Giovanni Torsello
16:40 – 16:45	Lessons learned after 200 EndoVascular Aneurysm Sealing (EVAS) procedures – S. Zerwes
16:45 – 16:50	Early and mid-term outcomes of Horizon™ abdominal aortic aneurysm stent graft system – F. Pecoraro Michael Hofmann
16:50 – 16:55	CURITIBA trial: Custodiol vs. Ringer: what is the best agent for renal protection during toracoabdominal aortic aneurysm open repair? – T. Cambiaghi
16:55 – 17:00	Discussion

We are asking all faculty members to strictly respect the given time limits.

LEIPZIG INTERVENTIONAL COURSE

LINC

Tuesday, January 24, 2017

ROOM 1 - MAIN ARENA 1

16:30 – 18:00	**THE LAST FRONTIERS: New concepts for calcified lesions** *MODERATOR:* Chris Metzger Hiroyoshi Yokoi *PANEL:* **Marcus Thieme** Gunnar Tepe Lieven Maene Thomas Heller James McKinsey
16:30 – 16:37	Patterns of calcification: intimal vs. medial and differences below and above the knee Aloke Finn
16:37 – 16:44	The Shockwave lithoplasty concept – latest results Thomas Zeller
16:44 – 17:04	Live case transmission from Leipzig
17:04 – 17:11	Importance of thorough vessel preparation followed by anti-restenotic therapy: an update from the DEFINITIVE AR study Gunnar Tepe
17:11 – 17:16	Treatment of challenging calcified lesions with the next generation. Phoenix atherectomy system Michael Lichtenberg
17:16 – 17:21	Recorded case Michael Lichtenberg
17:21 – 17:28	10 steps to percutaneous bypass of extra long, complex SFA occlusions Grzegorz Halena
17:28 – 17:35	FIRST TIME DATA RELEASE: The DETOUR trial: Six-month outcomes of percutaneous bypass in long segment femoral-popliteal occlusions Dierk Scheinert
17:35 – 17:55	Live case transmission from New York
17:55 – 18:00	Discussion

We are asking all faculty members to strictly respect the given time limits.
