## GLOBAL EXPERT EXCHANGE

- 08:00 – 10:30**      **Deep Dive: Renal denervation in cooperation with TCT**  
*CHAIRMAN:*  
Krishna Rocha-Singh  
*MODERATOR:*  
Dariusz Dudek  
Andrej Erglis  
**Steffen Desch**
- 08:00 – 08:20      Live case transmission from Leipzig
- 08:20 – 08:27      Understanding the target: Peri-renal nerve distribution, density and quantification  
Renu Virmani
- 08:27 – 08:34      Clinical use of renal denervation: Patient selection and results in real world  
Josef Friedenberger
- 08:34 – 08:41      Lessons learned with renal denervation in complex anatomies  
Erwin Blessing
- 08:41 – 08:48      How to predict the blood pressure response after renal denervation: Insights from the Homburg single center experience  
Christian Ukena
- 08:48 – 08:55      Measuring the clinical effect of renal denervation: Are office blood pressure and 24-hour ambulatory blood pressure monitoring the best surrogates?  
Paul Sobotka
- 08:55 – 09:00      Discussion
- 09:00 – 09:30      Live case transmission from Hamburg
- 09:30 – 09:37      Technical approaches to improve the results of renal denervation – properties of my dream device  
Horst Sievert
- 09:37 – 09:42      Device Parade: EnlighTN (St. Jude)  
Yvonne Bausback
- 09:42 – 09:47      Device Parade: V2 System (Vessix)  
Marc Sapoval

**We are asking all faculty members to strictly respect the given time limits.**
