ROOM 3 - TECHNICAL FORUM

16:30 – 18:00 **Scrub-in with the experts: Complex obstructions of the aortoiliac segment or supraortic branches**

MODERATOR:

Jörn Balzer

PANEL:

Patrice Mwipatayi

Spiridon Botsios

LIVE FROM LEIPZIG:

Sven Bräunlich

LIVE FROM BERGAMO:

Fausto Castriota

Antonio Micari

16:30 – 16:35 Flash presentation: Management of severe TASC C-D aorto iliac disease
Gianmarco de Donato

16:50 – 16:55 Flash presentation: Advantages of balloon expandable covered stents – challenges in aortic complex procedures
Michel Bosiers

17:10 – 17:15 Flash presentation: Outcome of covered stent in the subclavian artery
Manuela Matschuck

17:30 – 17:35 Flash presentation: Carotid stenting – in stent restenosis and treatment modalities
Piotr Odrowaz-Pieniazek

We are asking all faculty members to strictly respect the given time limits.

ROOM 2 - MAIN ARENA 2

08:00 – 09:00 Endovascular repair of iliac artery aneurysms – current techniques and results

MODERATOR:

Armando Lobato
Frank Vermassen

PANEL:

Spiridon Botsios
Sven Seifert
Reza Ghotbi

08:00 – 08:06 Unilateral and bilateral primary and secondary iliac aneurysms – endovascular treatment first!
Martin Storck

08:06 – 08:26 Live case transmission from Münster
St. Franziskus Hospital Münster - Live case center

08:26 – 08:32 Comparison and results of endovascular repair techniques in elective bilateral aortoiliac aneurysms
Armando Lobato

08:32 – 08:38 Iliac branching and long-term value: How effective is preservation in a single center experience
Reza Ghotbi

08:38 – 08:44 Long-term experience and lessons learned with the COOK IBD
Giovanni Torsello

08:44 – 08:52 E-liac or Zenith® iliac side branch? A comparison from one center of 50 patients each
Jan Brunkwall

08:52 – 09:00 Discussion and conclusion

We are asking all faculty members to strictly respect the given time limits.

ROOM 2 - MAIN ARENA 2

09:45 – 11:00	Current status of EVAR for infrarenal aortic aneurysms: Latest guidelines and new data <i>MODERATOR:</i> Vicente Riambau Roger Greenhalgh <i>PANEL:</i> Gianluca Faggioli Spiridon Botsios Germano Melissano Hendrik Verhagen Martin Malina
09:45 – 09:51	Impact of centralization on abdominal aortic aneurysm repair outcomes: Early experience in public health system Vicente Riambau
09:51 – 09:57	The choice of EVAR vs. OSR: Extreme local variation suggests the impact of political rather than medical factors! Martin Malina
09:57 – 10:03	Gender differences in EVAR/FEVAR/BEVAR Eric Verhoeven
10:03 – 10:23	Recorded case presentation: EVAR with Altura stentgraft Daniela Branzan
10:23 – 10:29	Proven durability and staying inside the IFU for challenging aortic necks Gianluca Faggioli
10:29 – 10:35	ENCORE study update: Durability through Polymer sealing using the Ovation AAA stent graft system Hendrik Verhagen
10:35 – 10:41	Long-term performance of endovascular repair of abdominal aortic aneurysms with the TREQ graft Jörg Teßarek
10:41 – 10:47	Clinical experience with Lifetech scientific abdominal stent graft Georgios Sfyroeras

We are asking all faculty members to strictly respect the given time limits.

Wednesday, January 29, 2020

- | | |
|---------------|--|
| 10:47 – 10:53 | Making EVAR safer in the long term: Using ultrasound to measure aortic sac diameter annually at home
Roger Greenhalgh |
| 10:53 – 10:59 | The NICE guidelines: Nice or not so nice?
Andrew Holden |
| 10:59 – 11:00 | Discussion and conclusion |

We are asking all faculty members to strictly respect the given time limits.

ROOM 7 - SPEAKERS' CORNER

- 09:30 – 11:00** **Challenging cases and complications – EVAR general/infrarenal (part I)**
MODERATOR:
Frans Moll
Spiridon Botsios
- 09:30 – 09:35 Recanalisation of chronic iliac artery occlusion, with EVAR-IBE and TEVAR for aortoiliac aneurysms after previous open repair of Type II thoracoabdominal aortic aneurysm
Ahmed El-Bakr
- 09:35 – 09:40 Iliac conduit construction without vascular control: An alternative access for bail-out stent grafting to salvage failed IBD implantation with retained delivery system
Kiattisak Hongku
- 09:40 – 09:45 Percutaneous puncture of angioplasty balloon for creating an access route for endovascular aortic aneurysm repair
Masahiro Inagaki
- 09:45 – 09:50 Ease of deployment of the TREO stent-graft: Value in resident training
Bartosz Rylski
- 09:50 – 09:55 EVAR in a case of infrarenal abdominal aortic pseudoaneurysm – salvaged by indigenous modification of EVAR technique and on table device modification
Sanjeev Kumar
- 09:55 – 10:00 Sequentially treated both internal iliac aneurysms with stenting and coiling method via endovascular approach
Seok Oh
- 10:00 – 10:05 Chimney EVAR with 10 complication
Javad Kojuri
- 10:05 – 10:10 Bail out procedure for juxtarenal aortic cuff dislocation during transcatheter aortic valve implantation after endovascular repair for ruptured aortic aneurysm
Reinhard Kopp
- 10:10 – 10:15 Endovascular solutions for maldeployment of contralateral limb in EVAR. Tips and tricks to avoid open conversion
Samer Koussayer

We are asking all faculty members to strictly respect the given time limits.

Thursday, January 30, 2020

- | | |
|---------------|--|
| 10:15 – 10:20 | An unusual case of delayed complete aortic graft occlusion treated by kissing balloon expandable covered stents and renal chimney
Claudia Panzano |
| 10:20 – 10:25 | Total laparoscopic inferior mesenteric artery ligation and direct sac puncture embolization technique for treatment of Type II endoleak
Enrique San Norberto-García |
| 10:25 – 10:30 | Management of an AAA with obstructive uropathy by EVAR using 20ml of contrast
Ahmed Sayed |
| 10:30 – 10:35 | Ilio-renal endovascular bypass: an innovative technique to preserve an accessory renal artery in endovascular abdominal aortic repair (EVAR)
Cristina Tello-Díaz |
| 10:35 – 11:00 | Discussion and conclusion |

We are asking all faculty members to strictly respect the given time limits.
