## MAIN ARENA 2

- 12:35 – 13:20**      **Lunch symposium: Peripheral CTO crossing - the European experience**  
supported with an unrestricted educational grant by Asahi Intecc  
*CHAIRMAN:*  
Andrej Schmidt  
*MODERATOR:*  
**Dai-Do Do**  
Marco Manzi  
Nicolaus Reifart
- 13:10 – 13:20      Discussion and conclusion
- 13:00 – 13:10      A novel CTO PTA device, my own experience  
Nicolaus Reifart
- 12:50 – 13:00      Why should I stay intraluminal in BTK CTO?  
Marco Manzi
- 12:40 – 12:50      BTK challenge, choosing the right tool can lead to success  
Andrej Schmidt
- 12:35 – 12:40      Introduction by the chairman

We are asking all faculty members to strictly respect the given time limits.

## SCIENTIFIC POSTERS

### 09:30 – 10:50 Moderated poster round in front of the LINC studio

*JUROR:*

Ralph-Ingo Rückert

**Dai-Do Do**

10:25 – 10:50

Miscellaneous

10:20 – 10:25

Background: Endovascular aneurysm repair (EVAR) has been suggested in several studies to be superior to open surgery repair (OSR) for the treatment of ruptured abdominal aortic aneurysms (rAAAs), but this finding might be affected by selection bias based on aneurysm morphology and patient characteristics. We tested rAAA anatomy according to EVAR suitability in patients undergoing OSR to assess the impact on mortality F. Krenzien

10:15 – 10:20

Two year experience repairing common iliac aneurysms with a modified endograft that compartmentalizes iliac flow through upstream bifurcation

Patrick Kelly

10:25 – 10:30

Introduction – Supervised exercise therapy (SET) is the primary treatment for intermittent claudication (IC). The aim of this study was to calculate annual savings if a stepped care model (SCM, primary SET treatment followed by revascularization in case of SET failure) would have been followed H. Fokkenrood

10:30 – 10:35

The impact of Vascular Chronic Q fever Infections: lessons learned from the world's largest outbreak P. Broos

10:45 – 10:50

Clinical results of infrapopliteal PTA and association of risk factors with primary patency and limb salvage in the patients of hemodialysis K. Hozawa

10:40 – 10:45

Clinical outcomes of less invasive endovascular treatment in the patient of peripheral arterial disease K. Hozawa

10:35 – 10:40

Acute Mesenteric ischemia – surgical management and outcomes T. Sahu

10:10 – 10:15

Robotic routing in complex aortic intervention

Thomas Nolte

10:05 – 10:10

The Aorfix stent graft – tackling challenging anatomy with favourable medium term outcomes K. Augustine

09:40 – 09:45

Pevar: analysis of costs and benefits compared with femoral surgery access L. Garriboli

**We are asking all faculty members to strictly respect the given time limits.**

## Wednesday, January 29, 2014

- |               |  |
|---------------|--|
| 09:35 – 09:40 | Comparison of the impact of open and endovascular abdominal aortic aneurysm repair on renal function A. Saratzis   |
| 09:30 – 09:35 | New approach to standard access in interventional procedures A. Kaledin  |
| 09:45 – 09:50 | Lessons learned from mid-term result of hybrid arch TEVAR and its solutions H. Matsuda   |
| 09:50 – 09:55 | Long-term outcome of endovascular repair for elective and ruptured abdominal aortic aneurysms; a 15-year single centre experience P. Broos   |
| 10:00 – 10:05 | Object of study and purpose: Persistent type II endoleaks (PT2) after EVAR have been shown to correlate with aneurysm sac expansion and increased need for secondary interventions F. Bontempi |
| 09:55 – 10:00 | Surgical options in endograft infections M. Ruffino  |
| 09:30 – 10:35 | Endovascular surgery/aortic  |

**We are asking all faculty members to strictly respect the given time limits.**

## MAIN ARENA 1

**09:30 – 11:00**     **A decade of innovation: Remaining challenges and future perspectives for the femoropopliteal arteries**

*CHAIRMAN:*

Kenneth Rosenfield

*MODERATOR:*

Ralf Langhoff

Marc Bosiers

Craig Walker

Peter Soukas

**Dai-Do Do**

- 10:20 – 10:45     Live case transmission from Bad Krozingen
- 10:45 – 10:50     Initial experience with DEB in occluded lower limb bypass  
Konstantinos Katsanos
- 10:50 – 10:55     BioMimics 3D - advanced stent design: Concept to randomised controlled trial  
Via satellite from Bad Krozingen  
Thomas Zeller
- 10:55 – 11:00     Discussion and conclusion
- 10:15 – 10:20     The FAIR - randomized clinical trial of DEB vs. PTA for SFA-ISR  
Hans Krankenberg
- 10:10 – 10:15     RELINE - randomized clinical trial: Viabahn covered stents vs. PTA  
Koen Deloose
- 09:35 – 09:40     2-year results of DEB for treatment of ISR  
Eugenio Stabile
- 09:40 – 09:45     The Debate-ISR study: 2-year data  
Francesco Liistro
- 09:45 – 10:10     Live case transmission from Leipzig
- 10:10 – 11:00     Latest clinical trials on treatment of in-stent restenosis
- 09:30 – 09:35     The Zilver PTX registry ISR subanalysis  
Michael Dake

**We are asking all faculty members to strictly respect the given time limits.**

## GLOBAL EXPERT EXCHANGE

### 11:00 – 12:30 Nurse and Technician Forum – Part I

*CHAIRMAN:*

Martin Werner  
Eric Ducasse

- |               |  |
|---------------|--|
| 11:46 – 11:56 | Vascular diagnostics prior to angioplasty: needs and pitfalls<br>Markus Haumer     |
| 11:56 – 12:06 | How do I choose the appropriate closure device<br>Eric Ducasse                     |
| 12:06 – 12:16 | Medical therapy after angioplasty/stenting<br>Martin Werner                        |
| 12:16 – 12:30 | Round table discussion   |
| 11:46 – 12:30 | Before and after an endovascular procedure   |
| 11:40 – 11:46 | Round table discussion   |
| 11:00 – 11:10 | Step by step: Carotid artery stenting procedures<br>Klaus Mathias                  |
| 11:10 – 11:20 | Step by step: Infrapopliteal revascularisation<br>Antonio Micari                   |
| 11:20 – 11:30 | Step by step: How I treat SFA lesions<br><b>Dai-Do Do</b>                          |
| 11:30 – 11:40 | Step by step: Hybrid procedures for peripheral obstructive disease<br>Holger Staab |
| 11:00 – 11:46 | Basic techniques in peripheral interventions                                       |

We are asking all faculty members to strictly respect the given time limits.
