## MAIN ARENA 1

- 15:00 – 16:30**     **A decade of innovation: Current treatment, remaining challenges and future concepts for the femoropopliteal arteries**  
*CHAIRMAN:*  
John Laird  
Karl-Ludwig Schulte  
*MODERATOR:*  
Sumaira Macdonald  
Chris Metzger  
**Hans Martin Gißler**  
Patrick Peeters
- 15:00 – 15:05     Stenting of the superficial femoral and popliteal artery: How good is the benchmark after years of optimisation?  
Erich Minar
- 15:05 – 15:10     2-year update on the SUPERB-study using a interwoven biomimetic nitinol stent in the SFA  
Kenneth Rosenfield
- 15:10 – 15:15     TASC D and beyond – 12 months results on the longest endoluminal bypass  
Thomas Zeller
- 15:15 – 15:20     Durability + Study: 12 months results  
Patrick Peeters
- 15:20 – 16:25     Latest clinical trials on drug-elution in femoropopliteal arteries
- 15:20 – 15:25     LEVANT II RCT  
Dierk Scheinert
- 15:25 – 15:30     PACIFIER RCT – 24 months update  
Michael Werk
- 15:30 – 15:35     My insights from DEB-RCTs: Breakthrough technology or just another tool in the box?  
Johannes Lammer
- 15:35 – 15:53     Live case transmission from Leipzig
- 15:53 – 15:58     Drug-elution with or without scaffolds for long lesions  
Thomas Zeller

**We are asking all faculty members to strictly respect the given time limits.**

Page 2/4

## Tuesday, January 28, 2014

- |               |  |
|---------------|--|
| 15:58 – 16:03 | Real world use of DEB in long femoropopliteal lesions – 2 year results<br>Andrej Schmidt                           |
| 16:03 – 16:08 | Assessment of calcium burden and calcium effect on drug elution<br>Fabrizio Fanelli                                |
| 16:08 – 16:15 | Less is more? Are more focal scaffolds the better solution?<br>Renu Virmani  |
| 16:15 – 16:20 | The concept of focal stenting – Lessons learned and future perspectives<br>Klaus Amendt                            |
| 16:20 – 16:25 | TOBA study – initial results of the TACK system<br>Thomas Zeller   |
| 16:25 – 16:30 | Bioresorbable drug-eluting scaffolds for the SFA – new developments: The Elixir Medical program<br>Dierk Scheinert |

We are asking all faculty members to strictly respect the given time limits.

LEIPZIG  
INTERVENTIONAL  
COURSE

L I N C

The logo for LINC (Leipzig Interventional Course) features the letters 'L I N C' in a bold, sans-serif font. A large, dark blue, brush-stroke-like graphic element curves behind the letters, starting from the bottom left and sweeping upwards and to the right, passing behind the 'I' and 'N'.

## MAIN ARENA 1

- 13:30 – 15:00**     **TCT @ LINC: Pioneering techniques and future perspectives in endovascular interventions. „Leaving no metal behind“ – the concept for the future?**
- CHAIRMAN:*  
William Gray
- MODERATOR:*  
Gunnar Tepe  
Renu Virmani  
Sumaira Macdonald  
**Hans Martin Gißler**  
Tony Das  
Johannes Lammer
- 13:30 – 13:35     Current evidence and clinical utility of atherectomy systems  
William Gray
- 13:35 – 13:40     The Phoenix Atherectomy System: My initial experience with the next generation of peripheral atherectomy  
Via satellite from Bad Krozingen  
Thomas Zeller
- 13:40 – 13:45     Directional atherectomy + DEB: Early insights from the Definitive AR study  
Gunnar Tepe
- 13:45 – 13:52     The SHOCKWAVE lithoplasty concept for calcified lesions – initial clinical experience  
Marianne Brodmann
- 13:52 – 14:20     Live case transmission from Bad Krozingen
- 14:20 – 14:27     The only solution for peripheral arteries is to avoid permanent implants – bioabsorbable scaffolds will be the future!  
Renu Virmani
- 14:27 – 14:34     Latest generation bioabsorbable technology – how to make it work  
Dierk Scheinert
- 14:34 – 14:53     Live case transmission from Leipzig

**We are asking all faculty members to strictly respect the given time limits.**
