MAIN ARENA 2

- 11:00 – 12:30** **Symposium: Improving EVAR outcomes in highly angulated AAA anatomy with an "on label" solution**
supported with an unrestricted educational grant by Lombard Medical
CHAIRMAN:
Vicente Riambau
MODERATOR:
Jörg Teßarek
- 11:55 – 12:15 Live case transmission from Leipzig
- 12:15 – 12:25 Prague University Hospital - 8 year follow up of real world results using Aorfix™
Petr Varejka
- 12:25 – 12:30 Discussion and conclusion
- 11:45 – 11:55 Iliac occlusions – clinical strategies to minimise the risk
Nilo Mosquera
- 11:35 – 11:45 Long term outcomes with Aorfix™ in challenging anatomy (a dual centre review)
John Hardman
- 11:05 – 11:15 Benefits and advantages of Aorfix™ endovascular stent graft in complex AAA anatomy
Richard Kellersmann
- 11:15 – 11:35 Live case transmission from Leipzig
- 11:00 – 11:05 Introduction by the chairman

We are asking all faculty members to strictly respect the given time limits.

GLOBAL EXPERT EXCHANGE

12:35 – 13:15

Challenging EVAR cases and complications – Part I

CHAIRMAN:

Michel Makaroun

Vicente Rimbau

MODERATOR:

Marc van Sambeek

Ramon Varcoe

13:00 – 13:05

Successful bailout procedure of misdeployed contra-lateral iliac leg outside a mainbody endograft using parallel balloon-expandable stent

13:05 – 13:10

King Faisal Hospital and Research Center experience in hybrid repair of thoraco-abdominal aortic aneurysm (TAAA) using TEVAR

13:10 – 13:15

Biting off more than you can chew; lessons learned from our fenestration experience

12:55 – 13:00

Pitfalls in endovascular treatment of Type B aortic dissection

12:50 – 12:55

A total debranching TEVAR case using Valiant with closed circuit CPB for the 87 years old man with a huge aortic arch aneurysm

12:40 – 12:45

Four-branched chimney TEVAR for ruptured mycotic aneurysm with 18 months follow up

12:45 – 12:50

Midterm outcome of branched Inoue stentgraft for thoracic aortic aneurysms and dissections

12:35 – 12:40

Use of current off-the-shelf technology for treatment of complex pararenal aortic aneurysm by percutaneous endovascular means

We are asking all faculty members to strictly respect the given time limits.

SCIENTIFIC POSTERS

- 09:30 – 10:50** **Challenging Cases and Complications - Moderated poster round in front of the LINC studio**
JUROR:
Peter Schneider
Vicente Riambau
- 10:30 – 10:35 Evar in pelvi kidney A. Lemos Junior
- 10:25 – 10:30 Endovascular treatment of massive hemoptysis by bronchial artery embolization A. Svare
- 10:20 – 10:25 Muscular flap for treatment of secondary aorto-esophageal fistula after thoracic endovascular aortic repair J. Ruiz
- 10:20 – 10:35 PVD/aorto-iliac
- 10:35 – 10:40 PVD/below the knee
- 10:35 – 10:40 Complex btk treatment: recanalization via a collateral artery - what is possible with modern guidewires and catheters? C. Lüdtke
- 10:45 – 10:50 Complete endovascular iliofemoropopliteal recanalisation B. Moors
- 10:40 – 10:45 Complications bonded to popliteal artery injury are a rare event that can occur during or after the knee surgery L. Garriboli
- 10:40 – 10:50 PVD/femoro-popliteal
- 10:15 – 10:20 Thoraco-abdominal dissection and thrombosis of the aortic graft in a patient previously treated for acute type B dissection. A. Malaj
- 10:10 – 10:15 Endovascular treatment pseudoaneurysm of the right iliac artery with arteriovenous fistula arose after spinal disc surgery M. Generalov
- 09:45 – 09:50 Endovascular repair for severe late failure of Zenith stent graft 2000 model S. Onozawa
- 09:40 – 09:45 Bilateral iliac recanalization for management of limb ischemia in patient with type A aortic dissection P. Rodríguez
- 09:35 – 09:40 Modified hybrid debranching technique to treat large subclavian artery aneurysm A. Saratzis
- 09:30 – 09:35 Emergency repair of a giant renal arterio-venous fistula with a wideneck using amplatzer plugs A. Saratzis

We are asking all faculty members to strictly respect the given time limits.

Thursday, January 30, 2014

- | | |
|---------------|--|
| 09:50 – 09:55 | Total endovascular repair of a ruptured abdominal aortic aneurysm with aortocaval fistula E. Willigendael |
| 09:55 – 10:00 | Complete endovascular aortic arch aneurysm repair
Patrick Kelly |
| 10:10 – 10:20 | Miscellaneous |
| 10:05 – 10:10 | TAA or malignancy S. Navaratne |
| 10:00 – 10:05 | Struggling with delivery system removal: a challenging technical issue during endovascular aortic aneurysm repair (EVAR) for AAA with severe neck angulation K. Hongku |
| 09:30 – 10:15 | Endovascular surgery/aortic |

We are asking all faculty members to strictly respect the given time limits.

MAIN ARENA 1

09:00 – 12:15

Critical issues in aortic endografting

CHAIRMAN:

Michel Makaroun
Roberto Chiesa

MODERATOR:

Marc van Sambeek
Steven Kum
Eric Verhoeven
Giovanni Torsello
Armando Lobato

11:16 – 11:24

Retrograde Type A dissections after EVAR – insights from surgical re-do procedures

Michael Borger

11:08 – 11:16

Update on understanding and management of PAU and IMH

Frank Criado

11:00 – 11:08

My experience with parallel graft techniques as an off-the-shelf solution for complex aortic aneurysms

Armando Lobato

11:24 – 11:43

Live case transmission from Münster

11:43 – 11:51

Prevention and treatment of Type I endoleaks with the Aptus system

Piotr Kasprzak

12:07 – 12:15

9-year experience with the use of iliac side branch devices in more than 160 patients

Giovanni Torsello

11:59 – 12:07

Innovative system for iliac branch procedures: The new GORE® EXCLUDER® iliac branch endoprosthesis

Fabio Verzini

11:51 – 11:59

Late Type I endoleak are better treatable by chimneys

Konstantinos Donas

10:52 – 11:00

Custom-made vs. off-the-shelf multibranched endografts for endovascular repair of TAAA
Via satellite from Münster

Martin Austermann

We are asking all faculty members to strictly respect the given time limits.

Friday, January 31, 2014

- | | |
|---------------|--|
| 10:44 – 10:52 | One year experience with complete endovascular repair of thoracoabdominal aneurysms by compartmentalizing aortic flow
Patrick Kelly |
| 09:36 – 09:44 | Long-term results with the Endurant stentgraft: The Muenster single center experience with 700+ patients
Theodosios Bisdas |
| 09:28 – 09:36 | Scientific and clinical value of contemporary EVAR post market registries: The ENGAGE case example
Hence Verhagen |
| 09:20 – 09:28 | EVAR improves outcomes of elective and ruptured AAA
Marc Schermerhorn |
| 09:44 – 09:52 | The real life GORE® GREAT registry: Latest clinical evidence and ongoing modules
Patrick Vriens |
| 09:52 – 10:00 | TREOVANCE in EVAR: Latest results on ADVANCE, BENEFIT and RATIONALE clinical studies
Vicente Riambau |
| 10:16 – 10:44 | Live case transmission from Leipzig |
| 10:08 – 10:16 | Thinking out of the box: innovative solutions for challenging EVAR cases - Nellix and beyond
Dittmar Böckler |
| 10:00 – 10:08 | Multicenter registry to evaluate the performance of chimney and periscope grafts
Konstantinos Donas |
| 09:00 – 09:20 | Live case transmission from Münster |

We are asking all faculty members to strictly respect the given time limits.
