## Tuesday, January 28, 2014

- |               |   |
|---------------|---|
| 11:05 – 11:10 | I strongly disagree, CAS is a safe procedure in experienced hands, with the right technique and patient selection<br>Horst Sievert              |
| 11:20 – 11:25 | Data are data and the message is clear<br>Frank Veith   |
| 11:25 – 11:35 | Panel discussion  |
| 11:40 – 11:45 | Status update on ACST II and other ongoing trials – what to expect?<br>Alison Halliday  |
| 11:35 – 11:40 | Which studies should we do and how can we do better science?<br>Peter Schneider   |
| 11:00 – 11:05 | Finally the guidelines are clear again: CEA remains to be the golden standard of treatment for the majority of patients<br><b>Martin Storck</b> |

We are asking all faculty members to strictly respect the given time limits.
