## MAIN ARENA 2

### 08:00 – 09:30 Intervention for acute deep vein thrombosis (DVT) & pulmonary embolism (PE)

*CHAIRMAN:*

Iris Baumgartner

**Robert Lookstein**

*MODERATOR:*

Niels Bækgaard

Ulrich Hoffmann

Stavros Konstantinides

Steve Ramee

- |               |                                                                                           |
|---------------|-------------------------------------------------------------------------------------------|
| 08:00 – 08:05 | Introduction by the chairman                                                              |
| 08:05 – 08:25 | Live case transmission from Berne                                                         |
| 08:25 – 08:35 | Evidence for catheter-directed thrombolysis to treat DVT<br>Niels Bækgaard                |
| 08:35 – 08:45 | Evidence for pharmacomechanical thrombolysis to treat DVT<br><b>Robert Lookstein</b>      |
| 08:45 – 08:55 | Evidence for novel oral anticoagulants to treat DVT & PE<br>Ulrich Hoffmann               |
| 08:55 – 09:05 | Evidence for systemic thrombolysis to treat PE: PEITHO trial<br>Stavros Konstantinides    |
| 09:05 – 09:15 | Evidence for catheter-directed thrombolysis to treat PE: ULTIMA trial<br>Iris Baumgartner |
| 09:15 – 09:30 | Live case transmission from Galway                                                        |

We are asking all faculty members to strictly respect the given time limits.

## SCIENTIFIC POSTERS

### 13:30 – 14:55 Moderated poster round in front of the LINC studio

*JUROR:*

Felix Mahler

- |               |                                                                                                                                                                                                   |
|---------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 13:30 – 14:25 | PVD/femoro-popliteal                                                                                                                                                                              |
| 13:30 – 13:35 | High doses catheter directed thrombolysis in treatment of acute thrombotic lower limb ischemia A. Lukasiewicz                                                                                     |
| 13:35 – 13:40 | Intravascular ultrasound evaluation of JETSTREAM atherectomy removal of superficial calcium in peripheral arteries<br>William Gray                                                                |
| 13:40 – 13:45 | Use of drugcoated balloon PTA as first line treatment for all SFA lesions<br>Koen Keirse                                                                                                          |
| 13:45 – 13:50 | OffRoad™ Re-entry catheter system for subintimal recanalization of chronic total occlusions in femoropopliteal arteries: primary safety and efficacy results of the Re-route trial<br>Koen Keirse |
| 13:50 – 13:55 | Drug-coated balloon in peripheral arteries: pre-clinical imaging, pharmacokinetic and physiologic study Rembergt Pogge                                                                            |
| 13:55 – 14:00 | Gender-related outcome after 5 years of primary femoropopliteal stent placement E. Schoenefeld                                                                                                    |
| 14:00 – 14:05 | Drug-eluting balloon is effective in denovo but not in restenotic femoropopliteal lesion: midterm results of a prospective study M. Herten                                                        |
| 14:05 – 14:10 | Evaluation of drug coated balloon technology in the real world; results from the Heidelberg registry<br>Britta Vogel                                                                              |
| 14:10 – 14:15 | Endovascular treatment for limb ischemia: final report of a prospective multicenter registry<br><b>Robert Lookstein</b>                                                                           |
| 14:15 – 14:20 | The effect of statin treatment on patients with femoropopliteal artery disease after endovascular therapy Y. Shintani                                                                             |
| 14:20 – 14:25 | Supra-aortic/carotid                                                                                                                                                                              |
| 14:20 – 14:25 | Clinical efficacy of the intravascular ultrasound during CAS to prevent procedural-related acute ischemic stroke N. Ogata                                                                         |

We are asking all faculty members to strictly respect the given time limits.

## Wednesday, January 29, 2014

- |               |                                                                                                                                        |
|---------------|----------------------------------------------------------------------------------------------------------------------------------------|
| 14:25 – 14:55 | Venous disease                                                                                                                         |
| 14:25 – 14:30 | Sclerotherapy in venous malformations: Risk of intraprocedural complications<br>Robert Clemens                                         |
| 14:30 – 14:35 | Endovenous laser ablation and foam sclerotherapy for management of varicose veins; Staged procedure O. Ismail                          |
| 14:35 – 14:40 | Objective: Significant release of endothelin 1 (ET-1) after foam sclerotherapy has been reported M. Kendler                            |
| 14:40 – 14:45 | Hybrid simultaneous treatment of thrombosed prosthetic grafts for hemodialysis N. Troisi                                               |
| 14:45 – 14:50 | DVT increase and relate with sleeping in car after North Italian earthquake 2012 (Emilia Earthquake) K. Hanzawa                        |
| 14:50 – 14:55 | Endovascular treatment of deep vein thrombosis: Final report of the prospective multi-center PEARL registry<br><b>Robert Lookstein</b> |

We are asking all faculty members to strictly respect the given time limits.
