### GLOBAL EXPERT EXCHANGE

#### 15:30 – 17:00 Japanese endovascular treatment strategies: Techniques and their outcome

*CHAIRMAN:*

Giancarlo Biamino

Kazushi Urasawa

*MODERATOR:*

Lawrence Garcia

Stanislav Bartus

16:40 – 16:50 Long term outcome of EVT for PAD patients – Japanese evidences  
Osamu Iida

16:50 – 17:00 Questions and answers

16:30 – 16:40 Various wiring techniques for long SFA-CTO lesions  
Kazushi Urasawa

16:00 – 16:30 Live case transmission from Aalst

15:40 – 15:50 Duplex echo-guided wiring in BTK intervention  
Akira Miyamoto

15:50 – 16:00 Wire rendez-vous technique

**Tatsuya Nakama**

15:30 – 15:40 Various distal puncture techniques to establish bi-directional wiring  
Hiroshi Ando

We are asking all faculty members to strictly respect the given time limits.

### GLOBAL EXPERT EXCHANGE

13:30 – 16:30

**Challenging cases, pioneering techniques, and complications in lower limb procedures**

*CHAIRMAN:*

Giancarlo Biamino

*MODERATOR:*

Roberto Ferraresi

15:40 – 15:45

How surgical strategies and diabetic foot infections link to revascularisation results

15:35 – 15:40

Cre8 BTK polymer-free DES technology: the Activ8 clinical trial

Enrico Marone

15:30 – 15:35

Multidisciplinary experience with diabetic foot patients in Mexico

15:25 – 15:30

Managing diabetic foot in Brazil

15:45 – 15:50

Angiographically directed ("Angiographosome concept") complex tibiopedal reconstruction

15:50 – 15:55

Pedal access for BTK CTOs

16:25 – 16:30

The technique of pedal arch angioplasty

**Tatsuya Nakama**

16:00 – 16:25

Live case transmission from Palermo

15:55 – 16:00

Pedal puncture with ultrasonographic guidance

14:55 – 15:25

Live case transmission from Leipzig

14:50 – 14:55

Treatment of a concomitant CFA perforation and distal lower extremity acute thrombosis

Peter Soukas

14:20 – 14:25

Role of hybrid procedures in replacing aortobifemoral bypass, critical role of the CFA

13:45 – 14:20

Live case transmission from Sao Paulo

13:40 – 13:45

Improved mortality using distal embolic protection devices during peripheral vascular intervention

13:35 – 13:40

Popliteal artery embolisation in superficial femoral artery interventions: incidence, risk factors, treatment, and prognosis

14:25 – 14:30

A new multifunctional catheter for difficult peripheral access

Gioachino Coppi

**We are asking all faculty members to strictly respect the given time limits.**

## Wednesday, January 29, 2014

- |               |   |
|---------------|---|
| 14:30 – 14:35 | Management of highly calcified aortic and iliac lesions   |
| 14:45 – 14:50 | Outcomes of deep femoral artery stent coverage during SFA interventions   |
| 14:40 – 14:45 | Technique of percutaneous direct needle puncture of calcified plaque (PIERCE) in superficial femoral artery or tibial artery to facilitate balloon catheter passage and following dilatation of the calcified lesions |
| 14:35 – 14:40 | Endovascular revascularisation of the internal iliac artery for lower limb ischaemia  |
| 13:30 – 13:35 | The short and mid-term result of self-expanding nitinol stents for treatment of femoropopliteal arteries following suboptimal balloon angioplasty   |

**We are asking all faculty members to strictly respect the given time limits.**
