MAIN ARENA 2

11:00 – 12:30

**Scrub in with the experts: Stenting the SFA. Current status**
This event has been partially made possible through an educational support from Cordis

**LIVE FROM BERLIN:**
Ralf Langhoff

**LIVE FROM LEIPZIG:**
**Andrej Schmidt**

**CHAIRMAN:**
Karl-Ludwig Schulte

**MODERATOR:**
Michael Piorkowski
Peter Goverde
Martin Werner
Lawrence Garcia

12:00 – 12:07

**Current indications for SFA stenting**
Via satellite from Berlin
Ralf Langhoff

11:45 – 11:52

**From science to daily routine practice – experiences with MISAGO Rx stent system for SFA treatment**
Michael Lichtenberg

11:30 – 11:37

**Consequences of SFA stenting and how to overcome them**
Peter Goverde

11:15 – 11:22

**The retrograde approach for flush SFA occlusions: Techniques and mid-term outcomes**
Michael Piorkowski

MAIN ARENA 1

15:00 – 16:30  Current concepts and advances for long femoropopliteal lesions and in-stent restenosis
               
               CHAIRMAN: Tony Das
               MODERATOR: Jörn Balzer
               Francesco Liistro
               Peter Gaines
               Marc Bosiers
               Sabine Steiner
               Michael Werk
               Roberto Gandini

15:52 – 16:15  Live case transmission from Leipzig
               Roberto Gandini

16:15 – 16:20  Excimer laser atherectomy for in-stent restenosis: Results of the EXCITE trial
               Eric Dippel

16:20 – 16:25  The Copa Cabana study: DEB vs. POBA in in-stent restenosis
               Gunnar Tepe

16:25 – 16:30  The cost economic value of DCB
               Konstantinos Katsanos

15:47 – 15:52  The Leipzig experience with DCB, conventional, and interwoven nitinol stents for complex SFA disease
               Sabine Steiner

15:42 – 15:47  The endoluminal bypass – the best solution for long lesions and ISR?
               Peter Soukas

15:07 – 15:12  After 10,000+ DCB: How has this technology changed our clinical practice for complex SFA lesions?
               Andrej Schmidt

15:12 – 15:19  One-year follow-up of the DEBAS STUDY
               Patrice Mwipatayi

15:19 – 15:26  Is the combination of DCB and bare metal stents as effective as DES? The BIOLUX 4EVER trial
               Marc Bosiers

TECHNICAL FORUM

16:30 – 18:00  Scrub in with the experts: The last frontiers: Below-the-ankle disease
LIVE FROM ABANO TERME:
Marco Manzi
CHAIRMAN:
Gary Ansel
Roberto Ferraresi
MODERATOR:
Sigrid Nikol
Jihad Mustapha
Dai-Do Do
Ralf Langhoff
Hiroyoshi Yokoi

17:45 – 17:50  Flash presentation: “No-option-patients”: Is angiogenesis with gene or cell therapy still an option?
Sigrid Nikol

17:30 – 17:35  Flash presentation: Outcome of CLI interventions through the retrograde pedal access
Andrei Schmidt

17:15 – 17:20  Flash presentation: Pedal angioplasty: landmark and access lines
Thomas Rand

16:45 – 16:50  Flash presentation: Foot vessel disease in critical limb ischemia: innocent bystander or leading factor?
Roberto Ferraresi

We are asking all faculty members to strictly respect the given time limits.

<tbody>
<tr>
<td>08:00 – 11:00</td>
<td><strong>LINC Expert Course – CTO treatment - LIVE with Marco Manzi from Abano Terme, Thomas Zeller from Bad Krozingen, and Andrej Schmidt from Leipzig</strong></td>
</tr>
</tbody>
</table>

**CHAIRMAN:** Giancarlo Biamino  
**MODERATOR:** Patrick Peeters, Amman Bolia, Antonio Micari, Hiroyoshi Yokoi, Ralf Langhoff, Miguel Montero-Baker  

- **10:24 – 10:29** The virtuous Italian approach – transcollateral techniques, pedal loop and beyond  
  Via satellite from Abano Terme  
  Marco Manzi  

- **09:48 – 09:53** The German freestyle approach: Bidirectional access whenever needed  
  Via satellite from Leipzig  
  [Andrej Schmidt](#)  

- **09:12 – 09:17** The Japanese art of CTO crossing: Wiring with ultrasound or IVUS guidance  
  Hiroyoshi Yokoi  

- **08:36 – 08:41** Intraluminal whenever possible! Catheter and wire choice to be successful  
  Antonio Micari  

- **08:00 – 08:05** The traditional subintimal approach to femoropopliteal and BTK lesions  
  Amman Bolia
