| 10:00 – 10:05 | Carotid artery stenting for complicated patients  
Yong Quan Gu                                          |
| 10:05 – 10:10 | OPCABG+CEA+CAS simultaneously for a ischemic heart disease with bilateral severe carotid stenosis  
Zhidong Ye                                           |
| 10:10 – 10:15 | Optical coherence tomography during carotid stent procedures: Tips, techniques and advantages  
Suhail Dohad                                         |
| 10:15 – 10:20 | Treatment of subclavian and axillary artery aneurysms  
Francesco Aiello                                    |
| 10:20 – 10:25 | Exposed and infected carotid pseudoaneurysm endovascular treatment beginning with stenting and ending in hemorrhagic shock treated with coil embolization months later  
Christopher Stout                                   |
| 10:25 – 10:30 | Accidental placement of an internal jugular 8 french sheath in vertebral artery with bleeding and thrombus hanging off of sheath in vertebral artery – endovascular treatment  
Mark Goodwin                                         |
| 10:30 – 10:35 | Massive pulmonary embolism– the next frontier  
Mahir Elder                                          |
| 10:35 – 10:40 | Intravascular ultrasound guidance for IVC filter placement  
Donald Jacobs                                        |
