DISCUSSION FORUM

13:30 – 14:30  Open questions in the treatment of acute uncomplicated Type B dissection supported with an educational grant from Gore & Associates
  
  CHAIRMAN: Jan Brunkwall
  DISCUSSANT: Michael Dake, Michael Jenkins, Thomas Larzon, Santi Trimarchi

14:20 – 14:30  Panel discussion

14:15 – 14:20  Panel discussion: What is daily practice treating uncomplicated Type B dissections?

13:45 – 14:15  Interactive discussion of uncomplicated Type B dissection cases in medical treatment - Case examples
  Thomas Larzon

13:30 – 13:35  Is medical treatment alone the treatment of choice for all patients with uncomplicated Type B dissection?
  Michael Jenkins

We are asking all faculty members to strictly respect the given time limits.
**Wednesday, January 28, 2015**

**MAIN ARENA 2**

16:30 – 18:00  **Innovative solutions for the challenging landing zone in the iliac and thoracoabdominal segment**

*CHAIRMAN:*
- Martin Malina
- Jean-Pierre Becquemin

*MODERATOR:*
- Spiridon Botsios
- Eric Ducasse
- Tilo Kölbel
- Reza Ghotbi
- Piotr Kasprzak

17:39 – 17:46  **EVAR in severely angulated necks – Could we? Should we?**

Boonprasit Kritpracha

17:46 – 17:53  **Mid-term results of the global ANCHOR registry regarding treatment of Type I endoleaks**

Jean-Paul de Vries

17:53 – 18:00  **Three year experience with multilayer stent in the treatment of thoracoabdominal aneurysms – no evidence for aneurysm stabilization**

*Thomas Larzon*

17:32 – 17:39  **The Gore GREAT Registry: Update about a real life data collection**

Santi Trimarchi

16:51 – 17:32  **Live case transmission from São Paulo**

16:37 – 16:44  **Iliac branched devices – is it a durable solution?**

Guiseppe Panuccio

16:44 – 16:51  **Pre-emptive coil embolization of the internal iliac artery during EVAR There is no need!**

Marc van Sambeek

16:30 – 16:37  **Clinical considerations in preserving the hypogastric arteries with bilateral treatment. Is there need for an iliac branch system**

Paul Bachoo

Friday, January 30, 2015

**MAIN ARENA 1**

**09:00 – 12:00**  
**Critical issues in aortic endografting**  
CHAIRMAN: Vicente Riambau  
MODERATOR: Reza Ghotbi  
Piergiorgio Cao  
Frank Veith  
Armando Lobato  
Giovanni Torsello  

11:03 – 11:10  
Experience with re-do procedures in patients with infected endovascular or surgical aortic grafts  
Olaf Richter  

10:56 – 11:03  
Management of aortic disease in the state of infection or inflammation  
Martin Malina  

10:49 – 10:56  
How to implement a successful programme for EVAR of ruptured aneurysms  
Zoran Rancic  

11:10 – 11:17  
Re-do procedures after stent-graft migration or graft component disconnection  
Andreas Gussmann  

11:17 – 11:24  
When are stent-grafts a reasonable option for aneurysm patients with connective tissue disease?  
Vicente Riambau  

11:55 – 12:00  
Discussion and conclusion  

11:24 – 11:55  
Live case transmission from Münster  

10:21 – 10:49  
Live case transmission from Leipzig  

10:14 – 10:21  
One hundred percent of ruptured abdominal aortic aneurysms can be treated endovascularly if adjunctive techniques are used  
**Thomas Larzon**  

**09:39 – 09:46**  
Total endovascular aortic arch replacement with the sandwich technique  
Armando Lobato  

**09:32 – 09:39**  
Innovative device design and delivery sytems – exploring current and future device capabilities  
Dittmar Böckler
