MAIN ARENA 2

09:00 – 11:00 Controversies in endovascular aortic repair – EVAR outside the instructions for use
CHAIRMAN:
Frank Veith
Jean-Pierre Becquemin

MODERATOR:
Piotr Kasprzak
Giovanni Torsello
Andreas Gussmann
Mario Lachat

10:35 – 10:40 How short aortic necks should be defined, re-defined and measured
Isabelle van Herzeele

10:05 – 10:35 Live case transmission from Münster part II

10:40 – 10:45 Chimney procedures for juxtarenal aneurysms – technical considerations and outcomes
Giovanni Torsello

10:45 – 10:50 Fenestrated endovascular aortic grafts are still the best and most durable solution
Eric Verhoeven

10:55 – 11:00 Is EVAS going to change the practice with short neck and chimneys?
Michel Reijnen

10:50 – 10:55 The Auckland experience with the Nellix EVAS system
Andrew Holden

10:00 – 10:05 The scandal of long-term mortality after EVAR
Piergiorgio Cao

09:55 – 10:00 AAA-repair in patients with chronic renal insufficiency: EVAR or open repair
Vicente Rimbau

09:05 – 09:40 Live case transmission from Münster part I

09:00 – 09:05 EVAR for everyone: Are we going too far in the push to treat every aneurysm endovascularly?
Frank Criado

09:40 – 09:45 EVAR should be the first choice treatment in young patients with good anatomy
Frans Moll

We are asking all faculty members to strictly respect the given time limits.
