## TECHNICAL FORUM

- 08:00 – 09:30**     **Scrub in with the experts: Endovascular therapy in complex aortoiliac and femoral disease**  
*LIVE FROM DENDERMONDE:*  
Koen Deloose  
*CHAIRMAN:*  
Steve Ramee  
*MODERATOR:*  
**Spiridon Botsios**  
Ankur Patel  
Wolfgang Ritter  
Patrick Peeters  
Holger Staab
- 08:15 – 08:20     Advanced techniques for recanalization of TASC C/D iliac lesions  
Matthias Ulrich
- 08:30 – 08:35     Endovascular management of complex aorto-iliac lesions, bare metal stents vs.covered stents:  
Long-term result of COBEST trial  
Patrice Mwipatayi
- 08:45 – 08:50     Surgical approaches to iliac obstructions: When are they the preferred option?  
Ralph-Ingo Rückert
- 09:15 – 09:20     Hybrid procedures: When and how  
Holger Staab

We are asking all faculty members to strictly respect the given time limits.

Wednesday, January 28, 2015

## SCIENTIFIC POSTERS

09:30 – 11:10

**Moderated poster round in front of the LINC studio**

*JUROR:*

Patrick Peeters

**Spiridon Botsios**

09:30 – 10:50

Endovascular surgery/aortic

09:30 – 09:35

The effectiveness of the two-debranching TEVAR by using a reversed T shape extra-anatomical bypass graft with LSCA-LCCA autoperfusion methods S. Kondo

09:35 – 09:40

Drug coated balloon (DCB) angioplasty versus conventional angioplasty for the treatment of the superficial femoral artery and PI-segment in PAD-patients – updated interim results of the FREERIDE study D. Kieselbach

09:40 – 09:45

“Over-SIRIX”: a new method to calculate endograft oversizing by using “OsiriX Imaging Software” S. Fazzini

09:45 – 09:50

Long-term outcome of endovascular aortic repair in Japanese patients J. Tazaki

09:50 – 09:55

The effect of cardiopulmonary resuscitation on the outcome of ruptured abdominal aortic aneurysms Y. 't Mannetje

09:55 – 10:00

A FIM study to assess safety and effectiveness of the first single-sided access AAA EVAR – a 14Fr dual anchored system S. Raz

10:00 – 10:05

A clinical approach to vascular malformations J. Jalili Shahri

10:05 – 10:10

INSPIRATION study of the INCRAFT® AAA stent graft system at one-year L. English

10:10 – 10:15

Loss of kidney function after endovascular treatment of peripheral arterial disease T. Sigterman

10:15 – 10:20

Bi- and three-dimensional preoperative morphological features as predictors of reintervention and death after EVAR P. Sirignano

10:20 – 10:25

Treatment of complex abdominal aortic aneurysm anatomies with Aorfix: on-label vs open repair. I. Pokidkin

10:25 – 10:30

Impact of diabetic status on iliac artery stenting: nine-month results of the DURABILITY iliac study Patrick Peeters

**We are asking all faculty members to strictly respect the given time limits.**

COURSE

L I N C

The logo for the Leipzig Interventional Course (LINC) features the letters 'L I N C' in a bold, sans-serif font. The letters are arranged horizontally, with a stylized, dark blue brushstroke graphic that curves around the 'I' and 'N', passing behind the 'L' and 'C'.

## Wednesday, January 28, 2015

- |               |  |
|---------------|--|
| 10:30 – 10:35 | Role of haemodynamic stability in the outcome of endovascular vs surgical treatment of ruptured abdominal aneurysms: results from 68 consecutive patients A. Froio |
| 10:35 – 10:40 | Endovascular repair of acute and chronic aortic Type B dissections: impact on aortic remodeling and clinical outcome C. Cirelli                                    |
| 10:40 – 10:45 | Onyx® embolic agent in abdominal and thoracic Type II endoleaks treatment: our experience C. Cirelli   |
| 10:45 – 10:50 | Getting each endograft's advantages: EVAR for AAA with "difficult" proximal neck, using a combination of two types of endografts K. Konstantinidis                 |
| 10:50 – 11:10 | PVD/below the knee   |
| 10:50 – 10:55 | Early outcomes of bioabsorbable stent for below the knee critical limb ischemia DC. Ho   |
| 10:55 – 11:00 | Treatment of patients with peripheral vascular disease and tissue loss F. Accrocca   |
| 11:00 – 11:05 | Below the knee angioplasty: a center experience after LINC R. Costantini   |
| 11:05 – 11:10 | Success of infrapopliteal angioplasty in patients with occluded target arteries I. Kogan   |

We are asking all faculty members to strictly respect the given time limits.

## MAIN ARENA 2

- 16:30 – 18:00**      **Innovative solutions for the challenging landing zone in the iliac and thoracoabdominal segment**  
*CHAIRMAN:*  
Martin Malina  
Jean-Pierre Becquemin  
*MODERATOR:*  
**Spiridon Botsios**  
Eric Ducasse  
Tilo Kölbel  
Reza Ghotbi  
Piotr Kasprzak
- 16:30 – 16:37      Clinical considerations in preserving the hypogastric arteries with bilateral treatment. Is there need for an iliac branch system  
Paul Bachoo
- 16:37 – 16:44      Iliac branched devices – is it a durable solution?  
Giuseppe Panuccio
- 16:44 – 16:51      Pre-emptive coil embolization of the internal iliac artery during EVAR There is no need!  
Marc van Sambeek
- 16:51 – 17:32      Live case transmission from São Paulo
- 17:32 – 17:39      The Gore GREAT Registry: Update about a real life data collection  
Santi Trimarchi
- 17:39 – 17:46      EVAR in severely angulated necks – Could we? Should we?  
Boonprasit Kritpracha
- 17:46 – 17:53      Mid-term results of the global ANCHOR registry regarding treatment of Type I endoleaks  
Jean-Paul de Vries
- 17:53 – 18:00      Three year experience with multilayer stent in the treatment of thoracoabdominal aneurysms – no evidence for aneurysm stabilization  
Thomas Larzon

**We are asking all faculty members to strictly respect the given time limits.**

## GLOBAL EXPERT EXCHANGE

12:30 – 13:25

### Challenging EVAR cases and complications – Part II

*CHAIRMAN:*

Piergiorgio Cao

Martin Malina

*MODERATOR:*

Sven Seifert

Reza Ghotbi

**Spiridon Botsios**

12:30 – 12:36

TEVAR for embolizing lesions of the aorta

Michel Makaroun

12:36 – 12:42

Cheesewire fenestration of a chronic juxtarenal dissection flap to facilitate proximal neck fixation during EVAR

Venita Chandra

12:42 – 12:48

Respiratory tract bleeding secondary to Kommerell's diverticulum: endovascular management

Ivan Arismendi Ortiz

12:48 – 12:54

TEVAR with celiac trunk embolization to expand short distal landing zone

Hwan-Jun Jae

12:54 – 13:00

Endovascular treatment for thoracic aortic trauma

Cristina Rigueti-Pinto

13:00 – 13:06

Endovascular treatment of complex thoracic dissection in Mexico

Guering Eid Lidt

13:06 – 13:12

Treatment of successful arch aneurysms cases: Outcome from over ten cases using handcrafted LSA branch fenestrated valiant captivia stentgrafts

Yoshihiko Kurimoto

13:12 – 13:18

Aorto-esophageal and aorto-bronchial fistula after TEVAR

Igor Konar

13:18 – 13:25

What do you do with a patient having a AAA with unilateral groin access and a very high risk of general anesthesia

Gioachino Coppi

**We are asking all faculty members to strictly respect the given time limits.**
