## TECHNICAL FORUM

- 09:00 – 12:30**      **Deep Dive Session: Carotid revascularization**
- CHAIRMAN:*  
Frank Veith  
William Gray
- MODERATOR:*  
Martin Storck  
Bernhard Reimers  
**Klaus Mathias**  
Sumaira Macdonald  
Dariusz Dudek
- 09:00 – 10:37      Focus on asymptomatic carotid stenoses
- 09:00 – 09:07      Revascularization in patients with asymptomatic carotid stenosis – What is best practice?  
Marco Roffi
- 09:07 – 09:14      How good is current best medical therapy for stroke prevention in patients with asymptomatic carotid stenosis?  
Dorothee Saur
- 09:14 – 09:21      Asymptomatic carotid stenosis: What will CREST 2 tell us what we don't already know?  
Michael Jaff
- 09:21 – 09:28      A new life for carotid stenting? – The ACST-2 trial  
Alison Halliday
- 09:28 – 09:35      A status update on SPACE II  
Christian Reeps
- 09:35 – 09:42      How to pick the asymptomatic carotid stenosis at risk  
Frans Moll
- 09:42 – 09:49      Management of carotid artery disease in patients undergoing cardiac procedures  
Marco Roffi
- 09:49 – 09:56      Influence of coronary heart disease on patient outcome after CAS  
Stanislav Bartus
- 09:56 – 10:03      Discussion

**We are asking all faculty members to strictly respect the given time limits.**

## Tuesday, January 27, 2015

- |               |                                                                                                                                                                                                      |
|---------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 10:03 – 10:37 | Live case transmission from Berlin                                                                                                                                                                   |
| 10:37 – 12:30 | How to optimize outcome of carotid revascularization?                                                                                                                                                |
| 10:37 – 10:44 | Filter protected carotid angioplasty: Prospective analysis of microscopic findings of embolic material and correlation with clinical and morphological characteristics in 400 cases<br>Peter Huppert |
| 10:44 – 10:51 | Double filtration during carotid artery stenting: Reducing the risk of stroke<br>William Gray                                                                                                        |
| 10:51 – 10:58 | Carotid stenting with proximal protection in consecutive CAS patients<br>Horst Sievert                                                                                                               |
| 10:58 – 11:06 | The CARENET all-comer trial using the CGuard™ micronet-covered carotid embolic prevention stent<br>Piotr Musialek                                                                                    |
| 11:06 – 11:39 | Live case transmission from Cotignola                                                                                                                                                                |
| 11:39 – 11:46 | The role of stent design for CAS: Does it affect post procedural neurologic events<br>Eugenio Stabile                                                                                                |
| 11:46 – 11:53 | Evaluation and comparison of carotid and coronary artery plaque using IVUS virtual histology<br>Andrej Erglis                                                                                        |
| 11:53 – 12:00 | Long-term follow-up of CAS: 5 year data of a single center all-comers registry<br>Paolo Rubino                                                                                                       |
| 12:00 – 12:07 | Best practice in CEA: Is there a way to make surgery even better?<br>Gioachino Coppi                                                                                                                 |
| 12:07 – 12:14 | Carotid revascularization in Germany: Data from the national quality assurance programme on 30.000+ patients<br>Martin Storck                                                                        |
| 12:14 – 12:21 | Revascularization in recently symptomatic patients: How to achieve optimal results?<br>Carlo Setacci                                                                                                 |
| 12:21 – 12:28 | Despite current level 1 evidence – the outlook for an upsurge in CAS is bright<br>Frank Veith                                                                                                        |
| 12:28 – 12:30 | Discussion                                                                                                                                                                                           |

## TECHNICAL FORUM

### 16:30 – 18:00 **Scrub in with the experts: Carotid interventions**

*LIVE FROM COTIGNOLA:*

Antonio Micari  
Alberto Cremonesi

*CHAIRMAN:*

Horst Sievert  
William Gray

*MODERATOR:*

**Klaus Mathias**  
Dieter Raithel  
Zoran Milosevic

16:45 – 16:50 Flash presentation: Will the newest generation carotid stents resuscitate CAS? The CLEAR-ROAD trial

Marc Bosiers

17:00 – 17:05 Flash presentation: Is there a value of OCT-imaging during CAS?

Bernhard Reimers

17:15 – 17:30 Flash presentation: CAS with proximal protection from transradial/brachial approach

Piero Montorsi

We are asking all faculty members to strictly respect the given time limits.

## SCIENTIFIC POSTERS

13:30 – 14:40

**Moderated poster round in front of the LINC studio**

*JUROR:*

**Klaus Mathias**

Erich Minar

13:30 – 13:40

Renal/renal denervation

13:30 – 13:35

Clinical outcomes of renal artery stenting for hypertension and chronic kidney disease over 12 months in J-RAS study M. Fujihara

13:35 – 13:40

Lighting up the dark side of the renal muscular fibrodysplasia R. Costantini

13:40 – 14:00

Supra-aortic/carotid

13:40 – 13:45

Neurocognitive functioning after carotid endarterectomy and carotid stenting with filter protection or flow reversal

Isabelle van Herzele

13:45 – 13:50

CAS in octogenarians: correct evaluation for best treatment selection

Gioachino Coppi

13:50 – 13:55

Optical coherence tomography evaluation of a double layer micromesh design carotid stent G. Galzerano

13:55 – 14:15

Venous disease

13:55 – 14:00

Mechanochemical ablation for endovenous occlusion: The Hungarian experience

Attila Szabó

14:00 – 14:05

CCSVI in Menier's disease: a new possibility of treatment A. Bruno

14:05 – 14:10

Endovenous Laser Ablation (EVLA) versus Radiofrequency Ablation (RFA) for the treatment of SFJ/GSV reflux in patients with venous insufficiency A. Srivastava

14:10 – 14:40

Others

14:10 – 14:15

Percutaneous AngioJet Rheolytic Thrombectomy for acute high- and intermediate-risk pulmonary embolism: a promising treatment option S. Vecchio

14:15 – 14:20

Percutaneous interventional procedures for vascular access are usually performed using the draining cephalic or basilic vein M. Rahmatzadeh

**We are asking all faculty members to strictly respect the given time limits.**

## TECHNICAL FORUM

### 12:30 – 13:30 Challenging cases and complications

*CHAIRMAN:*

**Klaus Mathias**

*MODERATOR:*

Jos van den Berg

Hans Krankenberg

Francesco Liistro

Peter Soukas

Erwin Blessing

12:30 – 12:37 Managing challenge AV fistula restenosis – Experience from Chia Yi Christian Hospital, Taiwan  
Han-Lin Tsai

12:37 – 12:44 Endovascular management of chronic SVC syndrome  
B. C. Srinivas

12:44 – 12:51 Thrombolytic therapy of DVT & PE in pregnancy – review of risks, benefits and therapy including radiation risks  
Mark Goodwin

12:51 – 12:58 Optical coherence tomography in the intraoperative evaluation of the SUPERA self expanding stenting system  
Steve Henao

12:58 – 13:05 Recovery of lost profunda covered by subintimal flap  
Parag Doshi

13:05 – 13:30 Discussion and conclusion

We are asking all faculty members to strictly respect the given time limits.
