## SPEAKERS' CORNER

- 11:15 – 12:30**      **Update on innovations, clinical trials, and new data – treatment of CLTI**  
*MODERATOR:*  
Francesco Liistro  
*MODERATOR:*  
Raghu Kolluri
- 11:15 – 11:20      Direct vs indirect revascularization in the treatment of ischemic heel: A prospective comparative study  
Amr Aborahma
- 11:20 – 11:25      Combined stromal vascular fraction therapy and endovascular revascularization for diabetic foot salvage. A Tunisian experience  
Melek Ben Mrad
- 11:25 – 11:30      Ultra-low dose contrast angiography and revascularization in patients with CLTI and chronic renal impairment  
Ankur Patel
- 11:30 – 11:35      Angiogenic factors changes after endovascular revascularization of lower limb arteries in patients with diabetic foot syndrome  
Martyna Schönborn
- 11:35 – 11:40      Successful application of extracorporeal circulation compression perfusion in the treatment of diabetic foot: A retrospective cross-sectional study  
**Jiangning Wang**
- 11:40 – 11:45      Wharton's jelly mesenchymal stem/stromal cells in no-option critical limb ischemia – the CIRCULATE N-O CLI pilot study  
Tomasz Kwiatkowski
- 11:45 – 11:50      The impact of revascularization on the change in cultivated bacteriota in ulcerations in neuropathic-ischemic diabetic foot syndrome  
Mateusz Gajda
- 11:50 – 11:55      Improvement opportunities in chronic limb threatening ischemia – experience of a Latin American center  
Juan Manuel Telayna

**We are asking all faculty members to strictly respect the given time limits.**
