SPEAKERS' CORNER

- 11:15 – 12:30** **Update on innovations, clinical trials, and new data – treatment of CLTI**
MODERATOR:
Francesco Liistro
MODERATOR:
Raghu Kolluri
- 11:15 – 11:20 Direct vs indirect revascularization in the treatment of ischemic heel: A prospective comparative study
Amr Aborahma
- 11:20 – 11:25 Combined stromal vascular fraction therapy and endovascular revascularization for diabetic foot salvage. A Tunisian experience
Melek Ben Mrad
- 11:25 – 11:30 Ultra-low dose contrast angiography and revascularization in patients with CLTI and chronic renal impairment
Ankur Patel
- 11:30 – 11:35 Angiogenic factors changes after endovascular revascularization of lower limb arteries in patients with diabetic foot syndrome
Martyna Schönborn
- 11:35 – 11:40 Successful application of extracorporeal circulation compression perfusion in the treatment of diabetic foot: A retrospective cross-sectional study
Jiangning Wang
- 11:40 – 11:45 Wharton's jelly mesenchymal stem/stromal cells in no-option critical limb ischemia – the CIRCULATE N-O CLI pilot study
Tomasz Kwiatkowski
- 11:45 – 11:50 The impact of revascularization on the change in cultivated bacteriota in ulcerations in neuropathic-ischemic diabetic foot syndrome
Mateusz Gajda
- 11:50 – 11:55 Improvement opportunities in chronic limb threatening ischemia – experience of a Latin American center
Juan Manuel Telayna

We are asking all faculty members to strictly respect the given time limits.
