## ROOM 2 - MAIN ARENA 2

- 09:30 – 11:00**      **Aorto iliac obstructive disease: Endoluminal solutions**  
partially supported with an educational grant from Gore & Associates  
*MODERATOR:*  
Michele Antonello  
Hans Krankenberg  
*PANEL:*  
Koen Deloose  
Patrice Mwipatayi  
Gianmarco de Donato  
Sean Lyden  
Aljoscha Rastan  
Frank Vermassen
- 09:30 – 09:36      Complexity of iliac occlusive disease, current treatment algorithm, and treatment gaps  
Michele Antonello
- 09:36 – 09:42      Crossing techniques for complex aortoiliac obstructions – Why is the bi-directional approach the best?  
**Andrej Schmidt**
- 09:42 – 09:48      Self-expanding vs. balloon-expandable stents for iliac artery disease: Is either superior?  
Hans Krankenberg
- 09:48 – 10:15      Live case transmission from Leipzig
- 10:15 – 10:20      The value of covered stents in treatment of complex TASC C and D iliac lesions: the initial experiences with the BELSTREAM study  
Koen Deloose
- 10:20 – 10:25      First time data release: The BOLSTER study with the Lifestream covered stent in iliac lesions – 3-year outcomes  
John Laird
- 10:25 – 10:35      Case discussion: Challenging bilateral iliac case treated with VBX  
Hany Zayed

We are asking all faculty members to strictly respect the given time limits.

## ROOM 3 - TECHNICAL FORUM

- 15:00 – 16:30**      **Scrub in with the experts: Challenging aortoiliac interventions**  
*LIVE FROM LEIPZIG:*  
**Andrej Schmidt**  
*LIVE FROM NEW YORK:*  
Prakash Krishnan  
*MODERATOR:*  
Lawrence Garcia  
Michel Reijnen  
*PANEL:*  
Patrice Mwipatayi  
Sigrid Nikol  
Hans Krankenberg  
Maria Antonella Ruffino
- 15:00 – 15:05      Flash presentation: The 15-year evolution of covered stent: Choosing the best stent for iliac artery disease  
Patrice Mwipatayi
- 15:05 – 15:10      Flash presentation: A series of BeGraft implantations in isolated aortic stenoses: a women's issue?  
Sigrid Nikol
- 15:10 – 15:15      Flash presentation: Acute and follow-up results of complete aortoiliac obstruction (Leriche syndrome) – The Leipzig experience  
Madeleine Luther
- 15:15 – 15:20      Flash presentation: Global CERAB study: where are we standing?  
Michel Reijnen
- 15:20 – 15:25      Flash presentation: Covered stents as a lifesaver for the patient and me in my most bizarre cases  
Maria Antonella Ruffino

We are asking all faculty members to strictly respect the given time limits.

### ROOM 6 - SPEAKERS' CORNER

- 15:00 – 16:30**      **Update on clinical trials and new data – PVD/carotid/venous/AV access/EVAR**  
*MODERATOR:*  
Stephan Duda  
*PANEL:*  
Jean-Paul de Vries  
Peter Huppert
- 15:00 – 15:05      PrOpective multiCentrE study of cArotid artery steNting using MER stent– the OCEANUS study – 30 days and one year follow-up  
Piotr Odrowaz-Pieniazek
- 15:05 – 15:10      PARADIGM-EXTEND prospective academic trial of CGuard™ MicroNET-covered self-expandable stent system: Cumulative 3-year clinical and duplex ultrasound evidence for safety, efficacy and durability of stroke prevention  
Piotr Musialek
- 15:10 – 15:15      Double layer micromesh stents vs. closed cell stents for the endovascular treatment of carotid stenosis in the current era  
Paolo Righini
- 15:15 – 15:20      Intermediate results of a prospective randomized study in carotid artery revascularisation: the Acculink™ stent vs. the mesh covered stent (CGuard™)  
Pavel Ignatenko
- 15:20 – 15:25      Interim results from the PERFORMANCE I study – CAS using a 3-in-1 carotid artery stent system with an integrated embolic protection filter and post-dilation balloon  
Alberto Cremonesi
- 15:25 – 15:30      Ad interim results from a prospective real-world multicentre clinical practice of CAS using the CGuard™ embolic prevention system: the IRONGUARD 2 study  
Wassim Mansour
- 15:30 – 15:35      Significant contrast dose-reduction with digital variance angiography in carotid and cerebral X-ray angiography  
Viktor Imre Óriás
- 15:35 – 15:40      Comparative analysis of carotid artery stenting and carotid endarterectomy in clinical practice  
Andrey Karpenko

**We are asking all faculty members to strictly respect the given time limits.**

## Tuesday, January 22, 2019

- |               |  |
|---------------|--|
| 15:40 – 15:45 | Clinical evaluation on therapeutic efficacy of Angiojet Rheolytic thrombectomy in patients with acute pulmonary embolism<br>Shuiting Zhai                |
| 15:45 – 15:50 | Significant reduction in radiation using the 4 French instead of 6 French WavelinQ endoAVF system in creating endovascular AV-fistulas<br>Tobias Steinke |
| 15:50 – 15:55 | Fully absorbable patch based large hole vascular closure device<br><b>Andrej Schmidt</b>   |
| 15:55 – 16:00 | 2-year outcomes of EVAS and Ch-EVAS in abdominal aortic aneurysms based on calculated neck length: a single-center study<br>Patrick Berg                 |

We are asking all faculty members to strictly respect the given time limits.

## ROOM 3 - TECHNICAL FORUM

16:30 – 18:00

### Scrub-in with the experts: Supraaortic and brachial interventions

*LIVE FROM BERGAMO:*

Fausto Castriota

Antonio Micari

*LIVE FROM LEIPZIG:*

**Andrej Schmidt**

*MODERATOR:*

William Gray

Horst Sievert

*PANEL:*

Zoran Milosevic

Sean Lyden

Bernhard Reimers

Stanislaw Bartus

16:30 – 16:35

Flash presentation: Use of OCT and IVUS during CAS

Bernhard Reimers

16:35 – 16:40

Flash presentation: Covered stents in the management of carotid artery erosion from head and neck cancers

Michael Silva

16:40 – 16:45

Flash presentation: PTA of aortic arch vessel in patients with Takayasu disease

Rajesh Vijayvergiya

We are asking all faculty members to strictly respect the given time limits.

## ROOM 1 - MAIN ARENA 1

- 12:30 – 13:30**      **Focus session: Pioneering approaches for “no-option” patients**  
partially supported with an educational grant from LimFlow  
*LIVE FROM LEIPZIG:*  
Steven Kum  
**Andrej Schmidt**  
*MODERATOR:*  
Jihad Mustapha  
Marianne Brodmann  
*PANEL:*  
Roberto Ferraresi  
Peter Schneider  
Michael Lichtenberg  
Ehrin Armstrong
- 12:30 – 12:35      Percutaneous deep venous arterialization for end stage CLI  
Steven Kum  
**Andrej Schmidt**
- 12:35 – 12:40      Flash presentation: No option CLI – A rising epidemic and an overview of solutions  
Michael Lichtenberg
- 12:40 – 12:45      Flash presentation: Surgical and hybrid venous arteriolisation – How to perform it and what are the limitations  
Roberto Ferraresi
- 12:45 – 12:50      Flash presentation: Update on the PROMISE I early feasibility study in the US and global experience  
Jihad Mustapha
- 12:50 – 12:55      Flash presentation: Rationale and design of a pivotal study for an autologous blood filter device for treatment of critical limb ischemia  
Bijan Modarai

We are asking all faculty members to strictly respect the given time limits.

## ROOM 3 - TECHNICAL FORUM

11:00 – 12:30

### CLI and CTO summit – complex femoral and BTK interventions

*LIVE FROM ABANO TERME:*

Marco Manzi

*LIVE FROM LEIPZIG:*

**Andrej Schmidt**

*MODERATOR:*

Antonio Micari

Jihad Mustapha

Chris Metzger

*PANEL:*

Ralf Langhoff

Kazushi Urasawa

11:00 – 11:08

Over 1200 patients treated w/pedal access from primary CTO + CLI in an outpatient setting

Jim Melton

11:08 – 11:16

Usefulness of ankle block in case of distal puncture for below-the-knee angioplasty

Yutaka Dannoura

11:16 – 11:16

SELECTED ABSTRACTS - CHALLENGING CASES

11:16 – 11:21

Retrograde transcollateral revascularisation of totally occluded superficial femoral artery

Ertan Vuruskan

11:21 – 11:26

Modified snare-piercing technique for severe calcified superficial femoral artery lesion

Kazuki Tobita

11:26 – 11:31

Popliteal artery bifurcation reconstruction by double retrograde access of tibial arteries with kissing balloon technique

Saritphat Orrapin

We are asking all faculty members to strictly respect the given time limits.

## ROOM 2 - MAIN ARENA 2

- 12:30 – 13:30**      **Focus session: Pioneering techniques and new concepts for prevention of stroke and paraplegia during EVAR in the thoracic and thorakoabdominal aorta**  
*LIVE FROM LEIPZIG:*  
**Andrej Schmidt**  
*MODERATOR:*  
Vicente Riambau  
*PANEL:*  
Christian Etz  
Daniela Branzan  
Michael Jacobs  
Eric Verhoeven  
Michael Borger
- 12:30 – 12:38      Minimally invasive staged segmental artery coil embolisation – step by step  
**Andrej Schmidt**
- 12:38 – 12:46      Staged repair and neuromonitoring during thoracoabdominal aortic repair – is it helpful?  
Michael Jacobs
- 12:46 – 12:54      Principle of spinal cord protection in open and endovascular TAA/A repair: from bench to bedside  
Christian Etz
- 12:54 – 13:02      Technical aspects and first clinical results of MISACE  
Daniela Branzan
- 13:02 – 13:10      Stroke in TEVAR: cerebral protection techniques. When and how  
Tilo Kölbel

We are asking all faculty members to strictly respect the given time limits.

## ROOM 3 - TECHNICAL FORUM

13:30 – 17:00

### Pioneering techniques for critical limb ischemia and “no-option” patients

LIVE WITH:

**Andrej Schmidt**

Marco Manzi

Thomas Zeller

MODERATOR:

Giancarlo Biamino

Hiroyoshi Yokoi

PANEL:

John Laird

Antonio Micari

Francesco Liistro

Konstantinos Katsanos

13:30 – 13:38

Angiosomal-guided revascularisation in critical limb ischemia

Jun Li

13:38 – 13:46

Direct revascularisation (DR) to Improve wound healing and prevent major amputations in CLI patients with below-the-knee PAD. Case presentations and literature review

Ammar Safar

13:46 – 13:54

Percutaneous needle disruption of heavily calcified tibial artery during infrapopliteal angioplasty; personal experience with the PIERCE technique previously described by Sato et al.

Jinoo Kim

13:54 – 14:02

Central wiring technique is useful for SFA occluded lesions with self ultrasonography guided method

Hideyuki Takimura

14:02 – 14:10

Assisted tibial artery re-entry during SAFARI revascularisation

Kumar Madassery

14:10 – 14:18

An endovascular treatment option for end stage desert foot in the setting of rapidly progressing critical limb ischemia by way of deep venous arterialization

Zola N'Dandu

We are asking all faculty members to strictly respect the given time limits.
