ROOM 1 - MAIN ARENA 1

- 11:00 – 12:30** **SYMPOSIUM: Patient first: “Leave the right thing behind”. Debating evidence to provide the answers**
supported with an educational grant from COOK Medical
MODERATOR:
Iris Baumgartner-Peuker
PANEL:
Thomas Zeller
Fabrizio Fanelli
Aloke Finn
Marc Bosiers
- 11:00 – 11:05 Introduction
Iris Baumgartner-Peuker
- 11:05 – 11:13 XPEDITE study
Thomas Zeller
- 11:13 – 11:21 DCB + BMS is not a DES
Fabrizio Fanelli
- 11:21 – 11:41 Live case transmission from Leipzig
University Hospital Leipzig, Dep. Angiology - Live case center
- 11:41 – 11:49 Understanding restenosis in the SFA
Aloke Finn
- 11:49 – 11:57 First results of the ZILVERPASS study
Marc Bosiers
- 11:57 – 12:17 Live case transmission from Jena
University Hospital Jena - Live case center
- 12:17 – 12:25 The importance of scientific evidence
Iris Baumgartner-Peuker
- 12:25 – 12:30 Summing up on symposium discussion and debate
Iris Baumgartner-Peuker

We are asking all faculty members to strictly respect the given time limits.

ROOM 7 - SPEAKERS' CORNER

15:00 – 16:30 Selected abstracts original research – PVD/ BTK/ CLI

MODERATOR:

Iris Baumgartner-Peuker

PANEL:

Sabine Steiner

- | | |
|---------------|---|
| 15:00 – 15:05 | Occlusion of the radial artery. Reality or myth
Petr Podmetin |
| 15:05 – 15:10 | Multi-centre European experience in the use of the Indigo vacuum-assisted thrombectomy system in acute limb ischemia: the ReOpen registry
Alexander Maßmann |
| 15:10 – 15:15 | Visceral Artery Aneurysms (VAAs) – Management, surveillance and natural history analysis in a single UK centre over 10 years
Ahmed Elbasty |
| 15:15 – 15:20 | Validation of new oszillometric PAOD parameters: Puls Wave Index (PWI), Tissue Optical Perfusion Pressure (TOPP) and oszillometric ABI vs. cw-Doppler-ABI
Georg Horstick |
| 15:20 – 15:25 | Single center experience for peripheral arterial interventions via percutaneous brachial artery access using a 4F sheath
Daniel Kretzschmar |
| 15:25 – 15:30 | Vascular complications after extracorporeal membrane oxygenation (ECMO)
Alessandro Grandi |
| 15:30 – 15:35 | Assessment of endovascular treatment for critical lower limb ischaemia in 321 consecutive patients
Silva Breznik |
| 15:35 – 15:40 | Routine screening coronary angiography examination and adequate coronary revascularisation is important for improvement of clinical outcomes of patients with critical limb ischemia
Tatsuro Takei |
| 15:40 – 15:45 | Wifl classification does not predict limb amputation risk in dialysis patients undergoing revascularisation for critical limb ischemia
Mohammad Abualhin |

We are asking all faculty members to strictly respect the given time limits.

Tuesday, January 30, 2018

- | | |
|---------------|--|
| 15:45 – 15:50 | Non-calcified steno-obstructive lesions of abdominal aorta are associated with worse results following endovascular treatment
Alessio Sonetto |
| 15:50 – 15:55 | New approach for the development and stratification of peripheral stents
Channing Convelbo |
| 15:55 – 16:00 | Analysis of outcomes for bioresorbable vascular Scaffold use for the treatment of infra-popliteal disease
Mohammad Ansari |
| 16:00 – 16:05 | Early clinical results of the FLEX catheter in the treatment of below the knee lesions
Jihad Mustapha |
| 16:05 – 16:30 | Discussion and conclusion |

We are asking all faculty members to strictly respect the given time limits.

ROOM 5 - GLOBAL EXPERT EXCHANGE

08:00 – 09:30 **Deep dive session: Lower limb interventions (part I) – Focus on vessel preparation and drug-coated balloons**

MODERATOR:

Tony Das

Iris Baumgartner-Peuker

PANEL:

George Adams

Hans Krankenberg

08:00 – 08:15 Live case transmission from Leipzig
University Hospital Leipzig, Dep. Angiology - Live case center

08:15 – 08:20 What is vessel preparation and how have the DEFINITIVE LE and DEFINITIVE AR results influenced current practice?
Lawrence Garcia

08:20 – 08:25 What have we learned so far in the REALITY study?
Krishna Rocha-Singh

08:25 – 08:30 Laser in practice: defining the right settings across different lesion morphologies
George Adams

08:30 – 08:35 The PRELUDE study: PROspective Study for the TrEatment of Atherosclerotic Lesions in the Superficial Femoral and/or Popliteal Arteries Using the Serranator® Device
Andrew Holden

08:35 – 08:40 Comparison of particulate embolisation in different DCB formulations
Aloke Finn

08:40 – 08:45 Real-world experience with a Paclitaxel Coated Balloon for the treatment of atherosclerotic infrainguinal arteries. Twelve-month results of the BIOLUX P-III All Comers Registry in diabetic patients
Marianne Brodmann

08:45 – 08:50 12-month results from the IN.PACT DCB in a Chinese population
Wei Guo

08:50 – 08:55 12-month results with the ORCHID DCB: The Leipzig experience
Sabine Steiner

We are asking all faculty members to strictly respect the given time limits.

Wednesday, January 31, 2018

- | | |
|---------------|---|
| 08:55 – 09:00 | The role of DCB in Korea practice: LUTONIX DCB Korean registry 1-year data in fem-popliteal arteries
Jae Kyu Kim |
| 09:00 – 09:05 | First Report of the SELUTION Trial: 6-month outcomes of a Novel Sirolimus Coated DCB Technology Evaluated in SFA
Thomas Zeller |
| 09:05 – 09:10 | The LEGDEB registry – 12-month results with the Legflow® DCB in femoropopliteal de novo and restenotic lesions
Eugenio Stabile |
| 09:10 – 09:15 | Impact of gender on outcomes: Review of the IN.PACT SFA 3-year results
Maureen Kohi |
| 09:15 – 09:20 | Drug coated balloons vs. BMS for the treatment of femoropopliteal lesions
Hans Krankenberg |
| 09:20 – 09:25 | Health economic analysis of DCB use in Belgium: Implications for practice
Frank Vermassen |
| 09:25 – 09:30 | Discussion and conclusion |

We are asking all faculty members to strictly respect the given time limits.

SCIENTIFIC POSTERS

- 13:00 – 14:25** **Challenging cases: BTK, CLI, PVD, SFA**
JUROR:
Marianne Brodmann
Iris Baumgartner-Peuker
- 13:00 – 13:05 Rescue procedure with mechanical thromboaspiration in a case of acute embolism into dorsalis pedis artery during percutaneous revascularization of superficial femoral artery obstruction
Marco Fronda
- 13:05 – 13:10 Endovascular treatment in combine aortoiliac occlusive disease TASC D and infrainguinal lesion TASC D in CLI patient
Pruesttipong Kaviros
- 13:10 – 13:15 Complete healing of advanced diabetic foot ulcers by percutaneous transluminal angioplasty
Seyedmohammadreza Mousavisaadatabadi
- 13:15 – 13:20 Recanalisation of a chronic total occlusion in a popliteal artery using a FLEX® scoring catheter prior to drug coated balloon
Louis Lopez
- 13:20 – 13:25 Cost effectiveness of carbon dioxide as contrast medium to guide endovascular treatment of chronic lower limb ischemic patients with impaired renal function
Sohiel Nagib
- 13:25 – 13:30 Aortic rupture following catheter directed thrombolysis
Ganesan Annamalai
- 13:30 – 13:35 Iatrogenic internal mammary artery pseudoaneurysm treated with ultrasound guided percutaneous thrombin injection
Ana Marija Alduk
- 13:35 – 13:40 Minimally invasive EVT for CIA/EIA/SFA-CTO using the IVUS preceding technique in the popliteal artery approach
Shinichi Nakamura
- 13:40 – 13:45 Safety and efficacy of hybrid therapy for subacute and chronic peripheral artery occlusions
Masao Yamasaki

We are asking all faculty members to strictly respect the given time limits.

Wednesday, January 31, 2018

- | | |
|---------------|--|
| 13:45 – 13:50 | Role of endovascular management in treatment of surgical high risk patients with popliteal artery aneurysm
Mohamed Ismail |
| 13:50 – 13:55 | Successfully endovascular treated femoral artery following reocclusion of inserted venous vascular bridge after septic arrosional bleeding after xenogenic patch plastic
Christoph Köhler |
| 13:55 – 14:00 | Recanalisation total occlusion SFA thru tibial artery
Alejandro Goldsmit |
| 14:00 – 14:05 | Combined stenting and drug-coated balloon for complex femoropopliteal disease
Mosaad Soliman |
| 14:05 – 14:10 | A case of delayed pseudo-aneurysm after stent thrombosis of superficial femoral artery stenting
Hirokazu Miyasita |
| 14:10 – 14:15 | IVUS can tell the risk of vessel rupture even if SFA intervention
Hiroshi Araki |
| 14:15 – 14:20 | Endovascular management with catheter directed thrombolysis for treatment of chronic occluded femoro-popliteal bypass
Mohamed Ismail |
| 14:20 – 14:25 | Early occlusion of two cases after treatment of peripheral artery aneurysms with multilayer flow modulator stents: lessons to be learned
Murat Dogan |

We are asking all faculty members to strictly respect the given time limits.

ROOM 3 - TECHNICAL FORUM

- 16:30 – 18:00** **Miscellaneous topics: Renal, visceral interventions, and beyond**
MODERATOR:
Robert Lookstein
Iris Baumgartner-Peuker
PANEL:
Dai-Do Do
Thomas Heller
Felix Mahfoud
- 16:30 – 16:36 Renal stenting: Are there still valid indications?
Iris Baumgartner-Peuker
- 16:36 – 16:42 Update on renal denervation: Latest technical developments and data
Felix Mahfoud
- 16:42 – 17:09 Live case transmission from Leipzig
University Hospital Leipzig, Dep. Angiology - Live case center
- 17:09 – 17:15 Chronic visceral ischemia: tips and tricks
Jos van den Berg
- 17:15 – 17:21 Large vessel vasculitis – messages for the interventionalist
Ulrich Hoffmann
- 17:21 – 17:27 Endovascular techniques for visceral artery aneurysm treatment
Stefan Müller-Hülsbeck
- 17:27 – 17:46 Live case transmission from Teaneck
Holy Name Medical Center Teaneck - Live case center
- 17:46 – 17:52 The SUTTON syndrome: Rare but dangerous
Steffen Basche
- 17:52 – 18:00 Interventional options for treatment of pelvic congestion syndrome
Gerard O'Sullivan

We are asking all faculty members to strictly respect the given time limits.
