ROOM 1 - MAIN ARENA 1

11:00 – 12:30	SYMPOSIUM: Patient first: “Leave the right thing behind”. Debating evidence to provide the answers supported with an educational grant from COOK Medical <i>MODERATOR:</i> Iris Baumgartner-Peuker <i>PANEL:</i> Thomas Zeller Fabrizio Fanelli Aloke Finn Marc Bosiers
11:00 – 11:05	Introduction Iris Baumgartner-Peuker
11:05 – 11:13	XPEDITE study Thomas Zeller
11:13 – 11:21	DCB + BMS is not a DES Fabrizio Fanelli
11:21 – 11:41	Live case transmission from Leipzig University Hospital Leipzig, Dep. Angiology - Live case center
11:41 – 11:49	Understanding restenosis in the SFA Aloke Finn
11:49 – 11:57	First results of the ZILVERPASS study Marc Bosiers
11:57 – 12:17	Live case transmission from Jena University Hospital Jena - Live case center
12:17 – 12:25	The importance of scientific evidence Iris Baumgartner-Peuker
12:25 – 12:30	Summing up on symposium discussion and debate Iris Baumgartner-Peuker

We are asking all faculty members to strictly respect the given time limits.

SCIENTIFIC POSTERS

- 13:00 – 14:40** **Moderated poster round: Challenging cases: AV, iliac, venous**
JUROR:
Christian Erbel
Marcus Treitl
- 13:00 – 13:05 Acute thrombosis complicating aneurysmal fistula salvage
Stephen D'Souza
- 13:05 – 13:10 Endovascular management for salvage of arteriovenous fistula
Mohamed Ismail
- 13:10 – 13:15 Bilateral endovascular interventions after crossover bypass grafting
Alexander Hansen
- 13:15 – 13:20 Persistent sciatic artery aneurysm, case report and follow-up for 15 years
Magdy Haggag
- 13:20 – 13:25 Successful of hybrid revascularisation for TASC D AIOD after failing femoro-femoral crossover
bypass
Jaroen Cheewinmethasiri
- 13:25 – 13:30 Percutaneous revascularization could be a feasible option for complex aorto-iliac occlusive disease
(case presentation)
Ahmed Allam
- 13:30 – 13:35 Complex ilio-femoral revascularization with a Gore® Hybrid Vascular Graft
Amer Zanabli
- 13:35 – 13:40 Endovascular treatment of calcified, stenotic iliac arteries
Fabrizio Fanelli
- 13:40 – 13:45 Innovative use of covered stents in acute lower limb ischaemia due to aorto iliac occlusions – two
case reports
Chris Francis
- 13:45 – 13:50 Guidewire related complication during hemodialysis catheter placement: Intravascular knotted
guidewire
Ehab Elashaal

We are asking all faculty members to strictly respect the given time limits.

Tuesday, January 30, 2018

- | | |
|---------------|---|
| 13:50 – 13:55 | Superior vena cava filter placement for prevention of pulmonary embolism due to acute upper extremity deep venous thrombosis in patients contra-indicated anticoagulation
Sohiel Nagib |
| 13:55 – 14:00 | Catheter directed thrombolysis for treatment of bilateral Iliofemoral deep venous thrombosis with hypoplastic inferior vena cava
Mohamed Ismail |
| 14:00 – 14:05 | Endovascular Treatment of deep venous thrombus due to May-Thurner syndrome using self-expandable stents. 4 case series with intravascular ultrasound findings
Tetsuya Asato |
| 14:05 – 14:10 | Acute deep vein thrombosis with duplication of inferior vena cava
U. Gurunandan |
| 14:10 – 14:15 | Successful treatment of acute thrombosis (2 days ago) of left subclavian vein with initial chronic occlusion of the left brachiocephalic vein by combination CDT and balloon angioplasty described veins
Alexey Ivanov |
| 14:15 – 14:20 | A case of successful endovascular treatment of acute BT-shunt thrombosis
Eyvaz Abbasov |
| 14:20 – 14:25 | A successful intervention with catheter-directed thrombolysis for patient with upper-extremity deep vein thrombosis
Mahmoud Saleh |
| 14:25 – 14:30 | Reconstruction of acquired IVC interruption
Vishal Batra |
| 14:30 – 14:35 | Endoprosthesis and hypogastric thrombosis after prothrombin complex concentrate administration – a real nightmare
María Pilar Lamarca Mendoza |
| 14:35 – 14:40 | Endovascular solution to a tumor-induced occlusion of iliac vessels
Denis Ueberschär |

We are asking all faculty members to strictly respect the given time limits.
