SCIENTIFIC POSTERS

15:00 – 16:35

Original research: AV-access, iliac, venous, and miscellaneous

JUROR:

Robert Jones
Rick de Graaf

15:00 – 15:05

Safety and efficacy of covered endovascular reconstruction of the aortic bifurcation (CERAB) technique for complex aortoiliac occlusive disease: a single center experience

Maria Antonella Ruffino

15:05 – 15:10

Time differentiation based image enhancement algorithms for kinetic imaging

David Szollosi

15:10 – 15:15

6-month result from a double-blinded randomised control trial for DCB vs. plain balloon angioplasty for dysfunctional vascular access

Skyi Yin Chun Pang

15:15 – 15:20

Longevity and infection free survival of permicath

Mohamed Ismail

15:20 – 15:25

Permeability of viabahn covered stent in native fistulas for hemodialysis: does puncture influence its permeability?

Pedro B. García-Jurado

15:25 – 15:30

Vein suturless anastomosis in vascular access graft

Marco Franchin

15:30 – 15:35

Catheter directed thrombolytic therapy complemented by ECMO: Treatment of massive pulmonary embolism with cardiac arrest

Mert Dumantepe

15:35 – 15:40

Long term follow up after endovenous thermal ablation and open surgery of varicose veins

Beatrix Cucuruz

15:40 – 15:45

12-month clinical outcome of a novel rheolytic directional thrombectomy technique for patients with iliofemoral deep vein thrombosis

Jörn Dopheide

We are asking all faculty members to strictly respect the given time limits.

Tuesday, January 22, 2019

- | | |
|---------------|---|
| 15:45 – 15:50 | Chronic Post-Thrombotic Syndrome – Can direct CTV be helpful in predicting inflow for venous reconstruction?
Andreia Coelho |
| 15:50 – 15:55 | Popliteal vein entrapment as the cause of varicose veins
Ayhan Senol |
| 15:55 – 16:00 | Catheter directed thrombolysis as a primary choice in the management of acute iliofemoral deep venous thrombosis
Abdulrahman Salem |
| 16:00 – 16:05 | The clinical impact of the endovenous management of chronic venous insufficiency in patients with chronic venous occlusive disease
Thomas Hall |
| 16:05 – 16:10 | Comparative study between conventional surgery and radiofrequency ablation in treatment of varicose vein
Mohamed Ismail |
| 16:10 – 16:15 | Surfacor system post-market, international registry demonstrates safe and effective performance
Tobias Steinke |
| 16:15 – 16:20 | Endovascular management of arteriovenous malformation: Tips & tricks
Hisham Sharafeldin |
| 16:20 – 16:25 | Early results of a randomised clinical trial of mechanochemical ablation vs. cyanoacrylate adhesive for the treatment of varicose veins (MOCCA)
Amjad Belramman |
| 16:25 – 16:30 | Novel compliant stent with specific design for truncular venous malformations: results of a porcine model study
Pierfrancesco Veroux |
| 16:30 – 16:35 | Thrombectomy devices in the treatment of massive acute pulmonary embolism: initial single center experience with aspirex and novel technique through jugular access
Bruno Freitas |

We are asking all faculty members to strictly respect the given time limits.

ROOM 6 - SPEAKERS' CORNER

09:00 – 11:00 Selected abstracts challenging cases – venous/AV

MODERATOR:

Rick de Graaf

PANEL:

Sebastian Sixt

Bruno Freitas

- | | |
|---------------|---|
| 09:00 – 09:05 | Aspiration thrombectomy for acute deep vein thrombosis of the left lower extremity of a child after cardiac radiofrequency ablation
Maria Antonella Ruffino |
| 09:05 – 09:10 | Mortality case after stent placement for SVC syndrome
Myung Gyu Song |
| 09:10 – 09:15 | Bilateral breast enlargement: an unusual presentation of SVC obstruction in a hemodialysis patient with fibrosing mediastinitis
Dong Erk Goo |
| 09:15 – 09:20 | Emergency single stage superior vena cava and pulmonary artery stenting
Nuran Seneviratne |
| 09:20 – 09:25 | Catastrophic antiphospholipid syndrome complicated with hepatic budd chiari syndrome and inferior vena cava occlusion: case report of successful management with endovascular sharp IVC recanalisation and direct intrahepatic porto-systemic shunting
Ali Alsaadi |
| 09:25 – 09:30 | Endovascular treatment for IVC filter related PTS
Wei Liang |
| 09:30 – 09:35 | Endovascular treatment of traumatic intra-abdominal suprahepatic IVC rupture
Nam Yeol Yim |
| 09:35 – 09:40 | Catheter directed thrombolysis followed by PTA of superior vena cava in a patient with severe SVC syndrome 3 years post PPM
Syed Maqbool |
| 09:40 – 09:45 | Right ovarian vein syndrome
Nasser Algharem |

We are asking all faculty members to strictly respect the given time limits.

Wednesday, January 23, 2019

09:45 – 09:55	Discussion
09:55 – 10:00	Endovascular management of concurrent ilio-iliac arteriovenous fistula and ipsilateral common iliac vein occlusion Bader AlAhaideb
10:00 – 10:05	Successful percutaneous management of massive active bleeding from the ulcerated skin in two cases of complex AVM Gonca Eldem
10:05 – 10:10	Postramatic high-flow priapism treated with superselective arterial coil embolization: case report and literature review Bianca Marinelli Teixeira
10:10 – 10:15	Sharp recanalisation of central venous occlusion utilizing re-entry catheter Ali Alsaadi
10:15 – 10:20	Inferior vena caval obstruction and limited role of endovenous therapy Mangesh Tarte
10:20 – 10:25	Duodenal perforation consequent to a cava filter migration Guilherme Vieira Meirelles
10:25 – 10:30	Klippel Trenaunay syndrome. When and what to do? Ayhan Senol
10:30 – 10:35	Advanced stage metastatic prostatic adenocarcinoma causing bilateral extensive Ilio-femoral DVT & infra-renal IVC thrombosis Mangesh Tarte
10:35 – 10:40	Single session combined treatment of acute pulmonary embolism (PE) and acute deep venous thrombosis (DVT) with mechanical aspiration thrombectomy: single center experience Massimo Pieraccini
10:40 – 11:00	Discussion and conclusion

We are asking all faculty members to strictly respect the given time limits.

SCIENTIFIC POSTERS

13:00 – 14:40 Challenging cases: PVD, SFA

JUROR:

Giancarlo Biamino
Dai-Do Do

- 13:00 – 13:05 Stent-graft treatment of iliac artery perforations
Simon Papoyan
- 13:05 – 13:10 Distal embolization at the below knee and common femoral artery. Endovascular management
Claudia Martinez
- 13:10 – 13:15 Revascularisation of concomitant external iliac and superficial femoral artery occlusion in the same session
Semi Öztürk
- 13:15 – 13:20 Endovascular treatment of popliteal thrombosis secondary to supra stent fracture
Liliana Fidalgo Domingos
- 13:20 – 13:25 Creation and management of AVF during complex peripheral revascularisation
Claudia Martinez
- 13:25 – 13:30 Perforation of the popliteal artery after rotational atherectomy for severe calcified occlusive lesion: Report of a rare case
Young Sun Yoo
- 13:30 – 13:35 Untraditional management of iatrogenic Avf of the popliteal and infra popliteal vessels
Mohamed Shehata
- 13:35 – 13:40 Common femoral artery percutaneous angioplasty with drug eluting balloon for closure device induced stenosis
Arnaud Kerzmann
- 13:40 – 13:45 Retrograde recanalization of distal SFA total occlusion through an occluded femoro-popliteal autovenous bypass
Dimitar Nikolov
- 13:45 – 13:50 Complex chronic thrombotic occlusion in a popliteal supra fracture: complex solution with Rotarex, Viabahn and open surgery
Bruno Freitas

We are asking all faculty members to strictly respect the given time limits.

Wednesday, January 23, 2019

- | | |
|---------------|--|
| 13:50 – 13:55 | External iliac artery perforation after the removal of arterial cannula using two Perclose ProGlide. in patients undergoing veno-arterial extracorporeal membrane oxygenation
Pil-Sang Song |
| 13:55 – 14:00 | Arterial spasm could be a cause of Burger disease
Hiroshi Araki |
| 14:00 – 14:05 | The triple aim? A case of multiple simultaneous arterial and venous thrombi
Eugen Ivan |
| 14:05 – 14:10 | Endovascular management of Angioseal related femoral artery occlusion
Thomas Hall |
| 14:10 – 14:15 | Severe bilateral upper extremities ischemia: think ergotism
Jonathan Miara Lopez |
| 14:15 – 14:20 | Hybrid technique for management of acute upper limb ischemia post radiation
Ahmed Almhrouky |
| 14:20 – 14:25 | A successful case of catheter-directed thrombolysis and staged stenting in a super-elderly patient with acute limb ischemia complicated with CKD
Takehiko Kido |
| 14:25 – 14:30 | The appearance of a new lesion, which is not predictable by pre-procedural angiography, distal to the implanted stent in the stenting of the lesion in the POPA
Jun Kikuchi |
| 14:30 – 14:35 | A case with blunt occlusive traumatic injury in the popliteal artery who underwent successful revascularisation using stent graft and distal puncture
Masayoshi Kimura |
| 14:35 – 14:40 | Spot stenting in patients with critical limb ischemia: Clinical experience from a Polish perspective
Robert Proczka |

We are asking all faculty members to strictly respect the given time limits.

Thursday, January 24, 2019

ROOM 1 - MAIN ARENA 1

- 09:30 – 11:00** **Symposium: Mechanical atherectomy and thrombectomy of arterial and venous occlusions**
supported with an educational grant from Straub Medical
MODERATOR:
Dierk Scheinert
Romaric Löffroy
PANEL:
Bruno Freitas
Christian Wissgott
Michael Lichtenberg
- 09:30 – 09:40 Atherectomy and thrombectomy of femoropopliteal occlusions with Rotarex®S: The Leipzig experience
Bruno Freitas
- 09:40 – 10:10 Live case transmission from Leipzig
University Hospital Leipzig, Dep. Angiology - Live case center
- 10:10 – 10:20 Retrospective analysis of initial results of an atherothrombectomy device in patients with acute, subacute, and chronic lower limb artery occlusion
Christian Wissgott
- 10:20 – 10:50 Live case transmission from Leipzig
University Hospital Leipzig, Dep. Angiology - Live case center
- 10:50 – 11:00 Safety, procedural success, and outcomes of the Aspirx® S endovascular thrombectomy system in the treatment of iliofemoral deep vein thrombosis: data from the Arnsberg Aspirx registry
Michael Lichtenberg

We are asking all faculty members to strictly respect the given time limits.
