ROOM 2 - MAIN ARENA 2

- 15:00 – 16:30** **CX@LINC: Endovascular aortic controversies**
MODERATOR:
Roger Greenhalgh
PANEL:
Dittmar Böckler
Tilo Kölbel
- 15:00 – 15:45 IMPROVING EVAR RESULTS
- 15:00 – 15:10 Reduced radiation and choice of imaging modality for endoleak detection and correction
Dittmar Böckler
- 15:10 – 15:20 New analyses for NICE aortic guidelines
Roger Greenhalgh
- 15:20 – 15:30 Most EVAR procedures should be done under local anaesthetic
Dittmar Böckler
- 15:30 – 15:45 Audience participation and discussion
- 15:45 – 16:30 AVOIDING STROKE FROM THORACIC ENDOVASCULAR PROCEDURES (STEP)
- 15:45 – 15:55 Stroke from Thoracic Endovascular Procedures (STEP study) findings
Tilo Kölbel
- 15:55 – 16:00 Audience participation and discussion
- 16:00 – 16:10 Pre-procedure screening to minimise stroke from endovascular arch repair
Michael Dake
- 16:10 – 16:15 Audience participation and discussion
- 16:15 – 16:25 Edited live: Ascending and arch of aorta techniques to reduce stroke risk
Tilo Kölbel
- 16:25 – 16:30 Audience participation and discussion

We are asking all faculty members to strictly respect the given time limits.
