ROOM 3 - TECHNICAL FORUM

- 09:00 – 11:30** **Management of carotid artery disease: Remaining controversies, latest technologies, and challenges ahead**
MODERATOR:
Horst Sievert
Alison Halliday
PANEL:
Martin Storck
Giancarlo Biamino
Frank Veith
- 09:00 – 09:06 Assessment of carotid plaque morphology using photoacoustic imaging
Marc van Sambeek
- 09:06 – 09:12 LINC status update: Management of asymptomatic stenose: Medical therapy is usually sufficient for asymptomatic carotid stenosis. What are the exceptions?
Johann Pelz
- 09:12 – 09:18 LINC status update: Management of asymptomatic stenose: Carotid repair is best for asymptomatic carotid stenosis because medical management alone does not work
Peter Schneider
- 09:18 – 09:23 Status update on the ongoing trials looking at asymptomatic carotid stenoses
Alison Halliday
- 09:23 – 09:26 Audience vote
- 09:26 – 09:51 Live case transmission from Berlin
Sankt-Gertrauden-Hospital Berlin - Live case center
- 09:51 – 09:57 Carotid interventions – is there a gender difference in outcome?
Martin Storck
- 09:57 – 10:03 40 years of carotid angioplasty – A glance back
Klaus Mathias

We are asking all faculty members to strictly respect the given time limits.

PROGRAMME

LEIPZIG
INTERVENTIONAL
COURSE

L I N C

The logo for the Leipzig Interventional Course (LINC) features the letters 'L I N C' in a bold, sans-serif font. A large, dark blue, brush-stroke-like graphic element curves behind the letters, starting from the bottom left and sweeping upwards and to the right, passing behind the 'I' and 'N'.

- | | |
|---------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 10:03 – 10:15 | LINC status update: Is carotid stenting largely equivalent to carotid endarterectomy for the majority of patients with significant carotid disease and indication for revascularisation? What are the open questions?
William Gray
Frank Veith |
| 10:15 – 10:21 | 1-year results of the SCAFFOLD study: GORE PTFE mesh-covered carotid stent
Peter Schneider |
| 10:21 – 10:27 | Parameters affecting the risk of embolization during carotid stenting
Peter Huppert |
| 10:27 – 10:33 | Initial clinical study of the new CGuard™ MicroNet® covered carotid-stent: One size fits all – experimental data and clinical results
Christian Wissgott |
| 10:33 – 10:39 | Dual layer stents for CAS: all you need to know to avoid acute re-occlusion
Stefan Müller-Hülsbeck |
| 10:39 – 10:45 | Proximal protection during CAS: Why is it the superior concept?
Giancarlo Biamino |
| 10:45 – 10:51 | TECAR with proximal flow reversal in symptomatic patients is superior to carotid endarterectomy no matter what kind of stent is used – results of a prospective study which includes DWMRI analysis
Ralf Kolvenbach |
| 10:51 – 10:57 | Avoiding and managing complications during CAS – lessons learned
Horst Sievert |
| 10:57 – 11:22 | Live case transmission from Bergamo
Humanitas Gavazzeni Bergamo - Live case center |
| 11:22 – 11:30 | Audience vote |
