## ROOM 2 - MAIN ARENA 2

- 08:00 – 09:15**      **Complex iliac artery aneurysms – current techniques for endovascular repair**  
*MODERATOR:*  
Giovanni Torsello  
Jan Brunkwall  
*PANEL:*  
Spiridon Botsios  
Fabio Verzini  
Olaf Richter
- 08:00 – 08:06      Results of the multicenter pELVIS registry for isolated common iliac aneurysms treated by the iliac branch device  
**Giovanni Pratesi**
- 08:06 – 08:12      Bilateral use of the Gore IBE device for bilateral CIA aneurysms and a first interim analysis of the prospective Iceberg registry  
Michel Reijnen
- 08:12 – 08:18      Long-term outcomes of the COOK IBD for iliac artery aneurysms  
Giovanni Federico Torsello
- 08:18 – 08:46      Live case transmission from Münster  
St. Franziskus Hospital Münster - Live case center
- 08:46 – 08:52      Iliac branch device GoWell: a prospective, multiple centers research results from China  
Wei Guo
- 08:52 – 08:58      Sandwich technique for treating AAAs involving the common Iliac bifurcations: Experience with 151 hypogastric revascularisations: Lessons learned  
Jan Brunkwall
- 08:58 – 09:04      Overtaking technical and anatomical challenges of preservation in the treatment of iliac aneurysmal disease  
**Giovanni Pratesi**
- 09:04 – 09:10      Bilateral iliac aneurysm: what to preserve?  
Jan Heyligers
- 09:10 – 09:15      Discussion and conclusion

**We are asking all faculty members to strictly respect the given time limits.**

## ROOM 2 - MAIN ARENA 2

- 09:15 – 11:00**      **Innovations for daily practice: Advanced settings for hybrid ORs and new technologies for “standard” infrarenal aortic aneurysm repair**  
*MODERATOR:*  
Frans Moll  
Marc van Sambeek  
*PANEL:*  
Jörg Teßarek  
Joost A. van Herwaarden  
Frank Veith  
Chang Shu  
Mauro Gargiulo
- 09:15 – 09:45      FOCUS ON CONSIDERATIONS AND INNOVATIVE SOLUTIONS FOR HYBRID ORS
- 09:15 – 09:21      Workflow innovation in the hybrid OR space  
Heiko Wendorff
- 09:21 – 09:27      Sterility in the hybrid OR – A crucial hygiene factor  
Roberto Traversari
- 09:27 – 09:33      Rationale for IVUS guided endovascular aortic repair  
Jörg Teßarek
- 09:33 – 09:39      First time data release: Innovation in 3D navigation: results from the FORS – Fibre Optic RealShape first in-human study  
Joost A. van Herwaarden
- 09:39 – 09:45      Occupational radiation hazards during EVAR  
Frans Moll
- 09:45 – 11:00      FOCUS ON CURRENT DATA AND NEW TECHNOLOGIES FOR "STANDARD EVAR"
- 09:45 – 09:50      Women experience clinically comparable long-term outcomes to men when treated with the Endurant endograft: a 5-year evaluation of 133 female patients from the ENGAGE registry  
**Giovanni Pratesi**
- 09:50 – 10:10      Live case transmission from Leipzig  
University Hospital Leipzig, Dep. Angiology - Live case center

**We are asking all faculty members to strictly respect the given time limits.**

## Wednesday, January 23, 2019

- |               |   |
|---------------|---|
| 10:10 – 10:15 | Does ovation offer a long-term durable solution for female AAA patients? Results from ENCORE gender sub-analysis<br>Sean Lyden                                  |
| 10:15 – 10:20 | Results in EVAR, FEVAR, and BEVAR: are differences between men and women still present?<br>Eric Verhoeven   |
| 10:20 – 10:25 | Early experience with Ankura AAA stent graft system<br>João Albuquerque e Castro  |
| 10:25 – 10:33 | Recorded case presentation: Abdominal aortic aneurysm repair with Lifetech Ankura AAA stent graft system<br>Konrad Janowski                                     |
| 10:33 – 10:38 | Single-centre experience with the Gore C3 Excluder stent-graft in 300 consecutive patients<br>Eric Verhoeven  |
| 10:38 – 10:43 | Might EVAS be associated with a difference in mortality compared to EVAR?<br>Michel Reijnen   |
| 10:43 – 10:48 | Contemporary EVAR evidence demonstrated clear improvement in long-term outcomes compared to EVAR-1: Insights from the ENGAGE global registry<br>Dittmar Böckler |
| 10:48 – 10:53 | Final results of the RATIONALE registry with the Treovance stent-graft<br>Vicente Riambau   |
| 10:53 – 11:00 | Discussion and conclusion   |

We are asking all faculty members to strictly respect the given time limits.

## ROOM 2 - MAIN ARENA 2

- 16:30 – 18:00**      **Advanced solutions for juxtarenal aneurysms and challenging neck anatomy**  
*MODERATOR:*  
Marc van Sambeek  
Giovanni Torsello  
*PANEL:*  
Thomas Larzon  
**Giovanni Pratesi**  
Daniela Branzan  
Jan Brunkwall
- 16:30 – 16:36      The use of EVAR to treat extreme hostile anatomies; Insights from the EAGLE registry  
Marc van Sambeek
- 16:36 – 16:42      Experience with Treovance in highly angulated necks  
David Murray
- 16:42 – 16:48      EVAR in severely angulated neck: an option with good longterm outcome  
Boonprasit Kritpracha
- 16:48 – 17:13      Live case transmission from Münster  
St. Franziskus Hospital Münster - Live case center
- 17:13 – 17:19      Early experience from the ENCHANT post-market registry on chEVAR with Endurant  
Giovanni Torsello
- 17:19 – 17:25      Pararenal AAA: Why FEVAR must be better than CHEVAR in most cases  
Eric Verhoeven
- 17:25 – 17:31      Update on the fenestrated Anaconda endograft for F/EVAR: worldwide experience from the global FACT registry  
Clark Zeebregts
- 17:31 – 17:37      Early experience with Excluder conformable in a broad range of anatomies  
Jörg Heckenkamp
- 17:37 – 17:43      Mid-term results from ANCHOR: How does this data influence the treatment algorithm for hostile EVAR anatomies  
Jean-Paul de Vries

**We are asking all faculty members to strictly respect the given time limits.**

## Wednesday, January 23, 2019

- 17:43 – 17:49 Complementary therapy for juxtarenal AAAs (<10 mm to 4 mm neck length): clinical results and technical insights using the Endurant + Heli-FX short neck indication  
**Giovanni Pratesi**
- 17:49 – 18:00 Discussion and conclusion

We are asking all faculty members to strictly respect the given time limits.

## ROOM 2 - MAIN ARENA 2

### 09:30 – 11:00 **Management of aortic dissections and pioneering techniques for pathologies of the ascending aorta and the aortic arch**

*MODERATOR:*

Tilo Kölbel

Frank Veith

*PANEL:*

Wei Guo

Ralf Kolvenbach

Mario Lachat

Roberto Chiesa

09:30 – 10:18 FOCUS ON ACUTE AORTIC SYNDROMES AND AORTIC DISSECTIONS

09:30 – 09:36 Update on management of PAU and IMH: Lingering doubt and controversies  
Frank Criado

09:36 – 09:42 Recent evidence surrounding the treatment of patients with Type B dissections  
Paul Hayes

09:42 – 09:48 Decision process and influencing factors for the treatment of uncomplicated Type B aortic dissection  
Dittmar Böckler

09:48 – 09:54 Chronic aortic dissection: When to use FEVAR and when false lumen occlusion techniques  
Tilo Kölbel

09:54 – 10:18 Live case transmission from Paris  
Hôpital Marie Lannelongue Paris - Live case center

10:18 – 11:00 FOCUS ON NEW APPROACHES FOR THE ASCENDING AORTA AND THE ARCH

10:18 – 10:24 How to manage aortic arch pathology: open, hybrid, chimney or fenestration  
Chang Shu

10:24 – 10:30 The current status of endovascular repair of ascending aorta and aortic arch  
Tilo Kölbel

10:30 – 10:36 Ascending aortic remodelling permits TEVAR in most ascending aneurysms  
Ralf Kolvenbach

**We are asking all faculty members to strictly respect the given time limits.**

## Thursday, January 24, 2019

- |               |  |
|---------------|--|
| 10:36 – 10:42 | Comparison of two different techniques of isolated left subclavian artery revascularisation during “Zone 2” thoracic endovascular aortic repair<br><b>Giovanni Pratesi</b> |
| 10:42 – 10:48 | RelayBranch: Expanding TEVAR to a new class of patients<br>Robin Hendricus Heijmen   |
| 10:48 – 10:54 | Register study for Zone 0 aortic arch aneurysm with Chimney/Sandwich technique: 8-year follow-up<br>TBD  |
| 10:54 – 11:00 | Updated results of the Nexus aortic stentgraft system<br>Mario Lachat  |

We are asking all faculty members to strictly respect the given time limits.
