SCIENTIFIC POSTERS

11:00 – 12:40

Original research: BTK, CLI, PVD

JUROR:

Roberto Ferraresi
Ramon Varcoe

11:00 – 11:05

Evaluation of the role of below-the-knee-revascularization (BTKR) for the treatment of peripheral arterial occlusive disease (PVD) in stage III and IV according to the Fontaine classification

Osama Eldergash

11:05 – 11:10

Below knee angioplasty in diabetic patients: predictors of major adverse clinical outcomes

Mohamed Kashkoush

11:10 – 11:15

Prevalence of critical limb ischemia and peripheral arterial disease in patients with end-stage renal disease on hemodialysis due to diabetic nephropathy, from PREDICT study

Tamon Kato

11:15 – 11:20

New method for assessment the efficiency of revascularization in patients with critical limb ischaemia

Gennadii Sheiko

11:20 – 11:25

Impact of myocardial injury after percutaneous transluminal angioplasty (PTA) in patients with critical lower limbs ischemia (CLI) on major adverse cardiovascular events

Agnieszka Wachsmann

11:25 – 11:30

Infra-popliteal interventions with drug eluting balloons vs. regular balloons in critical limb ischaemia – single center real world experience

Michael Sloan

11:30 – 11:35

Initial experience using closed incision management with negative pressure therapy after lower limb amputation in vascular patients: our case series

Carmen Schoonjans

11:35 – 11:40

Covered stent to treat iatrogenic femoral pseudoaneurysm

Carlota Fernandez Prendes

11:40 – 11:45

Comparison between full vs. partial revascularisation during endovascular management of multilevel lower limb arterial disease in

Amr Abou Elrous

We are asking all faculty members to strictly respect the given time limits.

Wednesday, January 31, 2018

- | | |
|---------------|--|
| 11:45 – 11:50 | AngioSeal for puncture site closure after antegrade procedures in peripheral arterial disease patients
Sulaiman Alsharfan |
| 11:50 – 11:55 | Catheter directed thrombolysis in management of early acute thrombotic ischemia
Osama Ismail |
| 11:55 – 12:00 | Study on the application of relay puncture technique in the treatment of patients with complicated arteriosclerosis obliterans
Chengzhi Li |
| 12:00 – 12:05 | 13 years experience of peripheral arterial disease intervention in tertiary referral center
Mohamed Elsherif |
| 12:05 – 12:10 | Preclinical results of a novel zinc alloy as a platform for bioresorbable vascular scaffolds in peripheral arterial disease
Christoph Hehrlein |
| 12:10 – 12:15 | TOPP-ABI – Tissue Optical Perfusion Pressure-Ankle Brachial Index: New parameters for diagnosis of PAOD and interventional results
Georg Horstick |
| 12:15 – 12:20 | Simultaneous ipsilateral retrograde and antegrade femoral accesses for single session lower extremity angiography and angioplasty |
| 12:20 – 12:25 | Potentiality of sheathless naked stent delivery technique on the puncture complications in patients with peripheral artery disease
Tomoaki Mochidome |
| 12:25 – 12:30 | TrackCath system new approach to cannulation
Zoran Rancic |
| 12:30 – 12:35 | Use of leukotrienes and thromboxanes as new prognostic biomarker of recurring restenosis after endovascular treatment in patients with lower limb ischemia
Mikolaj Maga |
| 12:35 – 12:40 | Clinical outcome of managing to lower low density lipoprotein cholesterol levels to peripheral arterial disease from I-PAD study
Daisuke Kashiwagi |

We are asking all faculty members to strictly respect the given time limits.
