## ROOM 2 - MAIN ARENA 2

- 10:15 – 11:00**      **Focus session: Endovascular fixation of endografts**  
*MODERATOR:*  
Giovanni Torsello  
*PANEL:*  
Vicente Riambau  
Jean-Paul de Vries  
Colin Bicknell  
Giovanni Pratesi  
**Hence Verhagen**
- 10:15 – 10:39      Live case transmission from Münster  
St. Franziskus Hospital Münster - Live case center
- 10:39 – 10:46      Mid-term results from ANCHOR: How does this data influence the treatment algorithm for hostile EVAR anatomies  
Colin Bicknell
- 10:46 – 10:53      Failure modes of endoanchors – What have we learned?  
Jean-Paul de Vries
- 10:53 – 11:00      Endoanchors can prevent cranial migration of thoracic endografts: When and how should they be used  
Vicente Riambau

We are asking all faculty members to strictly respect the given time limits.

## ROOM 2 - MAIN ARENA 2

- 11:00 – 12:30**      **Symposium: Introducing innovative solutions for the treatment of aortic disease**  
supported with an educational grant from Gore & Associates  
*MODERATOR:*  
Frank Veith  
Christoph Nienaber  
*PANEL:*  
Giovanni Torsello  
Dittmar Böckler  
Robert Rhee  
Michel Makaroun
- 11:00 – 11:05      Introduction
- 11:05 – 11:15      First clinical experience with GORE® TAG® Conformable stent graft with ACTIVE CONTROL system  
Giovanni Torsello
- 11:15 – 11:35      Live case transmission from Münster  
St. Franziskus Hospital Münster - Live case center
- 11:35 – 11:45      Treating challenging aortic anatomies. Are new devices the answer to overcoming current  
limitations?  
Dittmar Böckler
- 11:45 – 11:55      Combining new technologies with a history of proven results in TEVAR  
**Hence Verhagen**
- 11:55 – 12:05      Expanding EVAR indications with a next generation AAA endograft conforming to 90 degree neck  
angulations  
Robert Rhee
- 12:05 – 12:15      New horizon in endovascular care: early experience with an innovative thoracic branched device  
Michel Makaroun
- 12:15 – 12:30      Discussion and conclusion

We are asking all faculty members to strictly respect the given time limits.

## ROOM 2 - MAIN ARENA 2

- 14:15 – 15:00**      **Symposium: Strategies and techniques for optimising patient outcomes in complex aortic aneurysm anatomies**  
supported with an educational grant from Medtronic  
*MODERATOR:*  
Giovanni Torsello  
*PANEL:*  
Dittmar Böckler  
Vicente Riambau
- 14:15 – 14:21      Treating aortic aneurysms with large necks: What are the considerations?  
**Hence Verhagen**
- 14:21 – 14:28      Treating very short necks (ffl 4mm <10mm) using the Endurant stent graft + EndoAnchors: 1-year results and current insights  
Giovanni Pratesi
- 14:28 – 14:35      PROTAGORAS: Standardisation of the chEVAR technique can improve outcomes in patients with short necks  
Konstantinos Donas
- 14:35 – 14:42      Tips and techniques for utilising EndoAnchors in TEVAR  
Colin Bicknell
- 14:42 – 15:00      Panel discussion: What factors should be considered when treating complex aortic aneurysm anatomies (EVAR and TEVAR)?

We are asking all faculty members to strictly respect the given time limits.
